## NCIMS Executive Board Policy

### **Supervision and Operation of NCIMS Councils and Committees**

Purpose: To establish: (i) basic expectations for participation in NCIMS Councils and committees; (ii) uniform rules for the operation of NCIMS Councils and committees; (iii) minimum committee meeting, reporting and outcome requirements; and (iv) responsibility for regular supervision and reporting on the status of NCIMS committees to the NCIMS Executive Board.

#### **Participation on Councils and Committees:**

The goal of NCIMS Councils and committees is to advance the mission of the Conference – to assure the safest possible milk supply for all the people – and requires strong commitment by those involved, including preparation for and active participation during all meetings. Active participation includes attending scheduled meetings or conference calls, contributing to dialogue and asking questions, and identifying, proposing, or evaluating potential solutions. Assignment to a Council or committee involves more than simply providing comment or perspective, it is working in the collaborative and cooperative spirit characteristic of the Conference, and provides an

SUBJECT: Answers to Questions Received From The Field; Regional Milk Seminars; And FDA Training Courses Held During Fiscal Year 2017

Following are answers to questions received from the field; Milk Seminars; and FDA training courses (Special Problems in Milk Protection, Milk Plant Sanitation and Inspection, Milk Pasteurization Controls and Tests, and Dairy Farm Sanitation and Inspection) held during fiscal year 2017.

In accordance with procedures established through the National Conference on Interstate Milk Shipments (NCIMS), if an answer to these questions results in a new understanding of a long-standing situation or installation, and the condition as it exists does not present an immediate public health hazard, reasonable judgment should be exercised and adequate time provided for modification and correction.

An electronic version of this memorandum is available for distribution to Milk Specialists, Milk Regulatory/Rating Agencies, Laboratory Evaluation Officers and Milk Sanitation Rating Officers in your region. The electronic version should be widely distributed to representatives of the dairy industry and other interested parties and also will be available on the FDA Web Site at <http://www.fda.gov> at a later date.

If you would like an electronic version of this document prior to it being available on the FDA Web Site, please e-mail your request to [monica.metz@fda.hhs.gov](mailto:monica.metz@fda.hhs.gov).
