

CLEANET ALVIA

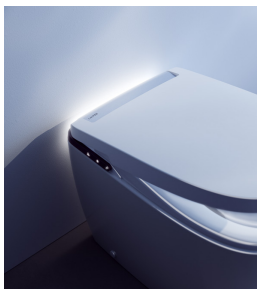

LAUFEN

FACTS AND FIGURES - CLEANET ALVIA

AUTO-OPEN AND CLOSING

Cover opens and closes via remote control or automatically when the user is approaching or leaving.

AMBIENT LIGHT

ambient light autofunction (on/off) available in the light configurations through the app.

INTEGRATED CONTROL PANEL

lateral panel on both sides with basic functions.

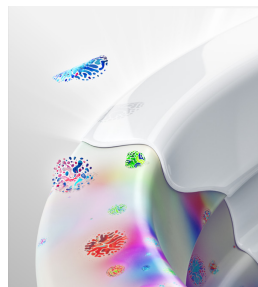

QUICK RELEASE OF SEAT AND COVER WITH HEATED SEAT FUNCTION

an optimal experience starts with a seat that has evenly distributed heat and can easily be removed to simplify cleaning.

RIMLESS

a ceramic bowl specially designed to optimize water flow, flush performance, and cleaning.

LCC

the smooth surface provides hardly any support for deposits, dirt particles and bacteria and is therefore even easier to clean. This includes the ceramic, seat & cover.

REAR, LADY AND INTENSE SHOWER

Configurable multi-stream rear, lady and intense shower to suit personal wash mode preferences.

HIGH-EFFICIENCY AIR-DRYER

The special design of the nozzle leads to the so-called Coanda effect of the air flow and thus to direct, targeted drying.

IN-TANK TECHNOLOGY FOR THE FLOORSTANDING VERSION

Integrated flushing water due to the integrated tank in the ceramic.

FACTS AND FIGURES - CLEANET ALVIA

SELF-CLEANING NOZZLE WITH E-WATER & UV LIGHT:

By applying electrolytic water before and after every use and complementing it with uv light, cleanet alvia achieves the removal of 99,99% of bacteria.

ODOUR REMOVAL

Active odour elimination through an automatic system.

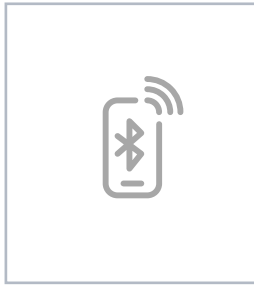

DESCALING

An easy to use descaling process to ensure long term performance.

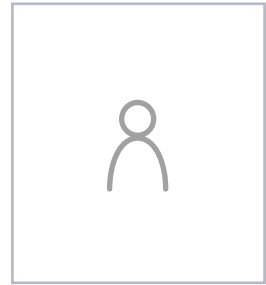

REMOTE CONTROL

Remote control for main functions and settings in a user-friendly design.

LAUFEN SMART CONTROL

Discover the smart control mobile app – your gateway to a world of iot and connectivity for your toilet. Designed with a user-friendly approach, this app seamlessly extends the capabilities of your remote control. It empowers you to fine-tune settings effortlessly, set durations for each process, and even schedule daily operations, maintenance, and cleaning tasks.

AUTOFUNCTIONS

Our state-of-the-art presence sensor offers seamless automation for many functions, including lid and seat opening and closing, ambient light, flush, and an efficient deodorizer. Experience the convenience of configuring and personalizing these features effortlessly through our dedicated app smart control.
