

DELAWARE RURAL WATER ASSOCIATION

DRWA

MEMBER HEALTH PLAN REMINDER

A Reminder About Your DRWA Member Health Benefits

A quick reminder that as a member of the Delaware Rural Water Association, you already have access to the **DRWA Member Health Plan** — a group health insurance program we negotiated specifically for our members.

If it's been a while since you looked at what's available, now is a good time.

Eight plan designs to choose from

Including two HSA options, so members pick the coverage level that fits their situation.

A choice of two national networks

Coverage you can use wherever you live and work across Delaware and beyond.

Annual increases about half the national average

Pooling DRWA members under one association program keeps yearly cost growth well below what an individual operator faces on their own.

Whether you've **never enrolled**, looked once and moved on, or have **employees or staff who could use coverage now** — the program is here and the rates reflect DRWA's collective buying power.

Take another look at what's available.

Your health plan options are still waiting.
