

DELAWARE RURAL WATER ASSOCIATION

DRWA

MEMBER HEALTH PLAN — HOW IT WORKS

How the DRWA Member Health Plan Works

Hi [First Name],

A few members have asked how the **DRWA Member Health Plan** actually works — so here's the short version.

1

Who's eligible?

Any Delaware Rural Water Association member in good standing — including water and wastewater system operators, individual members, and their employees.

2

What kind of coverage?

Health insurance plans built for small utilities, water systems, and independent professionals. You'll see **multiple plan options at different price points** — not a one-size-fits-all package.

3

How do I enroll?

Visit the enrollment link below. **Affinity Benefits** walks you through your options, handles the paperwork, and manages your coverage going forward. The process takes about 15 minutes.

4

What does DRWA do?

We negotiated the DRWA Member Health Plan and made it available to you. **Affinity Benefits handles everything else** — enrollment, administration, billing, and member support.

5

When can I sign up?

Any time. There's no open enrollment window. You can explore your options today or six months from now — on your schedule.

No open enrollment window. No waiting for the "right time." DRWA members can explore and enroll in health coverage any time of year — on your schedule.

Ready to see what's available?

Takes about 15 minutes. No obligation.

Affinity Benefits walks you through every step.
