

2026 DRWA Expo

DRWA's mission is to meet the needs of member water and wastewater systems by providing quality information, training, technical assistance and legislative representation, and to assist them in maintaining a high standard of service to their communities.

This year's Expo theme is "Can You Dig It?" We're focusing on things happening beneath our feet.

There's plenty of time to chat with our industry reps, too!

Don't forget to make time for the afternoon events: backhoe competition, photo contest, and more!

Friday, October 2, 2026
Greenwood Fire Hall
