training

Lead and Copper Requirements for Drinking Water Systems

Free virtual training on current and upcoming requirements under the Lead and Copper Rule, Lead and Copper Rule Revisions, and Lead and Copper Rule Improvements for drinking water systems is sponsored by the Delaware Department of Health and Social Services Drinking Water State Revolving Fund.

Wednesday, October 28th
1:00 – 3:00 pm

Overview: Exposure, sources, timeline and history, regulatory authority, federal and state requirements, compliance.

Elements: Tap monitoring, tiering, action level, source water monitoring and treatment, corrosion control treatment and water quality parameters, public notification, public education and outreach, consumer confidence report, schools and childcare facilities, primacy agency reporting, baseline inventory, replacement plan, small system flexibility, technologies for material verification (unknowns).

This training is geared toward drinking water utility staff, but all are welcome.

Attendees will receive 2.0 continuing education units (CEUs).

A certificate of attendance will be provided for attendees.

For additional information, please contact Brianna Kresse Brianna.Kresse@delaware.gov,
Public Health Treatment Program Administrator, DHSS
