

Delaware
Department of
Health and
Social Services
invites you to a
free training

Per- and Polyfluoroalkyl Substances (PFAS) in Drinking Water Systems

Free virtual training on PFAS, including:

- PFAS basics;
- Monitoring updates, including UCMR 6;
- Recent developments in research;
- Federal and Delaware regulatory requirements;
- Case studies on treatment technologies for drinking water systems.

Sponsored by the

Delaware Department of Health and Social Services Drinking Water State Revolving Fund

Thursday, November 12th
1:00 – 3:00 pm

PFAS Introduction

This session will also highlight updates on monitoring (including UCMR 6), research, regulation, and case studies.

For additional information,
please contact Brianna Kresse
Brianna.Kresse@delaware.gov,
Public Health Treatment Program
Administrator, DHSS

This training is geared toward drinking water utility staff, but all are welcome.
Attendees will receive 2.0 continuing education units (CEUs). A certificate of attendance will be provided.

For registration issues, please
email meetings@ERG.com
