Solutions

WORKSHOP: PFAS DRINKING WATER REGULATIONS & RESOURCES IN DELAWARE

*For professionals involved in planning, funding, building, or
operating PFAS treatment systems, especially at small or
resource-limited Water Utilities*

Location: Del-One Conference
Center DTCC Terry Campus,
Dover, Delaware

Date: Nov, 14, 2025

Time: 8:30am - 3:00PM

All public water systems must begin PFAS testing by 2026, a full year before new federal requirements take effect. Thanks to Senate Bill 72, Delaware is ahead of the curve.

Join us to explore Delaware's resources and gain practical insights into cost-effective PFAS treatment and solutions.

Agenda

8:30AM - 12:00PM: PFAS Treatment For Utilities
