ebendele@flpublicpower.com

FMEA Advocacy

- Protected infrastructure of municipal electric utilities from unfettered access by private telecommunications companies. Efforts also included a statewide PR campaign, including an op-ed, targeted social media messages, and a press statement upon final passage.
- Successful at exempting public power communities from local government preemption legislation that prohibits local governments from eliminating fuel choices.
- Advocated on key energy issues of importance to Florida public power – climate change, tax and comparable incentives, FEMA – with members of Florida’s Congressional delegation

FMEA Communications/Publications

- **Headline News**
 - A weekly comprehensive listing of industry-related news articles.
- **Relay Magazine**
 - A quarterly magazine that provides a close-up look at Florida's public power utilities highlighting their communities, employees, projects, and events.
- **FMEA Executive Director Update**
 - Regular update from FMEA Executive Director on important FMEA and industry related news.
- **FLPublicPower.com**
 - Daily industry news, interactive Member Directory, events hub
- **FMEA Social Media Channels**
 - @FLPublicPower
