Keys to Good Switching and Tagging

A Good Program Includes Five Components

1. Employees MUST protect themselves

Keys to Good Switching and Tagging

A Good Program Includes Five Components

1. Employees MUST protect themselves.
2. There is a single point of authority.
3. There are multiple points of view of the switching procedure.
4. Exceptions are rare and well-documented.
5. Procedures are consistently followed.

This woman is walking away from a plane crash carrying her personal belongings, including:

- Roller luggage bag
- Purse
- White department store bag

What should she have done?

This is the BIG PICTURE

Same Scene, Same Actions, Different People

New Event, Similar Situation

Look Closely at Their Actions

A Good Switching and Tagging Program Saves Lives

Remember these Five Components

1. Employees MUST protect themselves.
2. There is a single point of authority.
3. There are multiple points of view of the procedure.
4. Exceptions are rare and well-documented.
5. Procedures are consistently followed.
