40 YEARS OF SERVICE TO THE WATER AND WASTEWATER UTILITIES OF FLORIDA

The Florida Rural Water Association (FRWA) was originally formed for the benefit of small water and wastewater systems throughout Florida. We now serve all systems, large and small. We are a nonprofit, non-regulatory professional association. We are not a government agency. Our primary purpose is to assist water and wastewater systems with every phase of the water and wastewater operations. Our Active members consist of public water and wastewater systems, such as counties, municipalities, associations, districts, mobile home parks, schools, authorities, etc. Our seven board of directors are elected from the membership at our Annual Business Meeting
