

Part-Time Field Technician (Wastewater)

OnSyte Performance, LLC is seeking a dependable **Part-Time Field Technician (Wastewater)** to support the operation and maintenance of decentralized wastewater treatment systems throughout Central Florida.

This position is ideal for a **retired or semi-retired wastewater operator** looking to stay active while enjoying a flexible work schedule.

Primary Responsibilities

- Travel to treatment system sites throughout Central Florida.
- Perform preventive maintenance on decentralized wastewater treatment systems.
- Complete routine minor maintenance tasks.
- Conduct basic process control testing.
- Document inspection, maintenance, and testing results in logbooks.
- Identify and report maintenance or operational issues.

Qualifications

- Experience operating or maintaining wastewater treatment systems is preferred.
- Florida Wastewater Operator License preferred (current or previously held).
- Retired or semi-retired operators are strongly encouraged to apply.
- Valid Florida driver's license with a clean driving record.
- Ability to work independently and travel to multiple job sites.

What We Offer

- Flexible part-time schedule.
- Competitive hourly compensation based on experience.
- Compensation for vehicle and mileage.
- Opportunity to continue using your skills in a growing, innovative company.
- Friendly, team-oriented work environment.

If you're looking for a flexible opportunity to put your wastewater experience to work, we'd love to hear from you.
