

The City of Zephyrhills is seeking a qualified Wastewater Superintendent. *Brief Description:* Performs administrative and supervisory responsibilities to oversee the City's 3.85 MGD Wastewater Treatment Plant and collections system. Responsible for the proper operation of all equipment and assigned personnel. Involves accurate examinations and highly technical decision making involving treatment plant processes, collections performance, equipment utilization, personnel safety, and public health. Thorough knowledge of wastewater plant operating principles and practices. May be required to work overtime, or alternate hours, for the efficient operation of the Division. Completes other related duties as assigned. *Minimum Qualifications:* Minimum of seven (7) years' experience in wastewater treatment plant operations or sewer collections maintenance and repair with at least three (3) of those years in a supervisory capacity; State of FL DEP Class C Wastewater Treatment Plant Operator's License and obtain a Class B within six (6) months of hire; Wastewater Collections Technician Certification Class C, or obtain within one (1) year of hire. Possess and maintain a State of Florida Class B CDL driver license with airbrake endorsement, or obtain within six (6) months of hire.
