HAZARD MITIGATION GRANT PROGRAM DR-4734 HURRICANE IDALIA MATCH PROGRAM

The Florida Division of Emergency Management (Division) is happy to announce the Hurricane Idalia Hazard Mitigation Grant Program (HMGP) Match Program! In accordance with the 2024 General Appropriations Act, the Florida Legislature has appropriated \$33,000,000 in state funds for the full amount of the required match of local governments within fiscally constrained counties for Hazard Mitigation Assistance grants related to the Federal Emergency Management Agency (FEMA) disaster declaration for Hurricane Idalia to offset the costs that such local governments would otherwise be required to provide pursuant to s. 252.37(6), Florida Statutes.

Eligible subapplicants within a fiscally constrained county may apply for the non-federal match for their DR-4734 Hurricane Idalia Hazard Mitigation Grant Program (HMGP) project(s). If the HMGP project is approved, the subrecipient will enter into an agreement for the non-federal share match funding.

The application period will open in the Division's Emergency Management Enterprise Solution (DEMES) on **Wednesday, May 22, 2024, at 8 a.m. and will close on June 7, 2024, at 11:59 p.m. (EDT)**. The Division will administer the funds on a first come first served basis until the funding is used. If funding remains, the Division may reallocate the additional funds to account for project cost increases. This funding is competitive and limited so the earlier an Application is submitted once the portal is open, the better the chances of award. No applications will be accepted after the deadline.

Eligible subapplicants for the FEMA HMGP are local communities and certain private non-profits. Any eligible subapplicant within a fiscally constrained county may apply for the non-federal share (match) portion of their project cost. Information about how to apply via DEMES can be found in the attachments and on the Division's [HMGP Website](#).
