

ABOUT FOCUS ON CHANGE

The Florida Rural Water Association (FRWA) presents *the thirty-third annual "Focus on Change" Seminar* in conjunction with the Florida Department of Environmental Protection (DEP). These sessions are designed to provide the most current regulatory information available to utilities. FRWA is pleased to announce that the DEP Water, Wastewater, and Operator Certification Sections will be participating.

You will notice that this year's agenda includes several timely topics in the General Session and Breakout Sessions. You are encouraged to take the time to join us for what we anticipate being an informative Training Seminar. **You can download the presentations from our website prior to the event if you wish to bring them with you or re-view.**

There is no charge for admittance for those not wishing to earn CEUs/PDHs, however you must pre-register as seating is limited.

TENTATIVE AGENDA

For your convenience all presentation materials and rules and forms will be made available as soon as possible on the FRWA website at www.frwa.net. Download prior to the sessions if you would like to print them and bring them with you.
