

Move For Hunger

Making Move Outs More Sustainable

Engage Your Residents For Good

www.MoveForHunger.org

Our Impact

To date, our network has delivered more than

92 MILLION

lbs. of food to food banks in North America.

Of that total, **just over 30k lbs.** of food have been delivered to Georgia food banks via our multifamily program to date.

This is enough to provide

76 MILLION

meals to those in need.

That is enough to provide a little more than **25k meals** to feed local families in need across the state to date.

How It Works

By incorporating a simple process, Move For Hunger created a sustainable solution to food waste.

When a resident gives notice that they are moving out, please provide them with the program letter and a food collection bag.

Encourage them to place any unopened, non-perishable food items that they are not taking with them and wish to donate in the bag.

When you've collected at least 5 bags, let us know! We will arrange for a transportation volunteer to pick up the donations and deliver them to your local food bank.

Thank You
