Metropolitan Atlanta Consumer Confidence Survey  
First Quarter 2024 – BDL Roundtable – March 21, 2024

# **FOR IMMEDIATE RELEASE**

## **METROPOLITAN ATLANTA CONSUMER CONFIDENCE SURVEY**

### **INDEX RESULTS FOR FIRST QUARTER, 2024**

Based on a sample of telephone interviews conducted in early March 2024, the Metropolitan Atlanta Consumer Confidence Survey may be summarized as follows:

<b>INDEX OF CONSUMER SENTIMENT</b>	<b>65.4</b>
<b>INDEX OF CURRENT CONDITIONS</b>	<b>56.1</b>
<b>INDEX OF CONSUMER EXPECTATIONS</b>	<b>71.3</b>

### **Further Results from the Survey**

In addition to the three summary indexes adapted from the University of Michigan's "Survey of Consumers", the Metropolitan Atlanta Consumer Confidence Survey also calculates diffusion indexes for several of the factors that underpin consumers' expectations.

The "Interest Rate Expectations Index" measures changes in consumers' sentiments concerning the level of interest rates. A reading of over 100 indicates that consumers expect interest rates to rise. Likewise, a reading below 100 signals that consumers anticipate reductions in interest rates. The "Inflation Expectations Index" provides an analogous measure for expected inflation.

The "Real Income Growth Index" measures consumer sentiment concerning the rate at which their real income will increase. A consumer's real income is said to increase if their income rises faster than the price level. Accordingly, an index reading in excess of 100 indicates that consumers' anticipate their incomes to rise faster than the prices of the goods that they purchase.

<b>INTEREST RATE EXPECTATIONS INDEX</b>	<b>142.7</b>
<b>INFLATION EXPECTATIONS INDEX</b>	<b>115.6</b>
<b>REAL INCOME GROWTH INDEX</b>	<b>78.0</b>

The Atlanta Index may be contrasted with its historical values as well as the nationwide *Index of Consumer Sentiment* associated with the University of Michigan's *Survey of Consumers*© as shown below.

	NATIONAL	ATLANTA	ATLANTA	ATLANTA
Survey Date	Index of Consumer Sentiment	Index of Consumer Sentiment	Index of Current Conditions	Index of Consumer Expectations
2Q (May) 2006	<b>79.1</b>	<b>88.1</b>	86.8	89.0

## **About the Metropolitan Atlanta Consumer Confidence Survey.**

*The Metropolitan Atlanta Consumer Confidence Survey*, which began in Fall 1994, is co-sponsored by *Greater Atlanta Home Builders Association*.

Data for the Metropolitan Atlanta Consumer Confidence Survey is collected through telephone interviews with adult respondents in an 11 county area. These telephone interviews are conducted in conjunction with SDR. The survey area is composed of Cherokee, Clayton, Cobb, DeKalb, Douglas, Fayette, Forsyth, Fulton, Gwinnett, Henry and Rockdale counties.

The survey is adapted from the renowned "Survey of Consumers" conducted by the Survey Research Center at the University of Michigan since 1946. Like its national counterpart, the Metropolitan Atlanta Consumer Confidence Survey combines its results into three summery indexes, the "Index of Current Economic Conditions", the "Index of Consumer Expectations" and an overall index, the "Index of Consumer Sentiment". The construction of these indexes is such that there is no absolute benchmark against which the indexes are measured but rather the indexes measure relative performance across time. The national indexes utilize a 1966 base year, that is, the indexes are constructed so that they equal 100 for 1966.

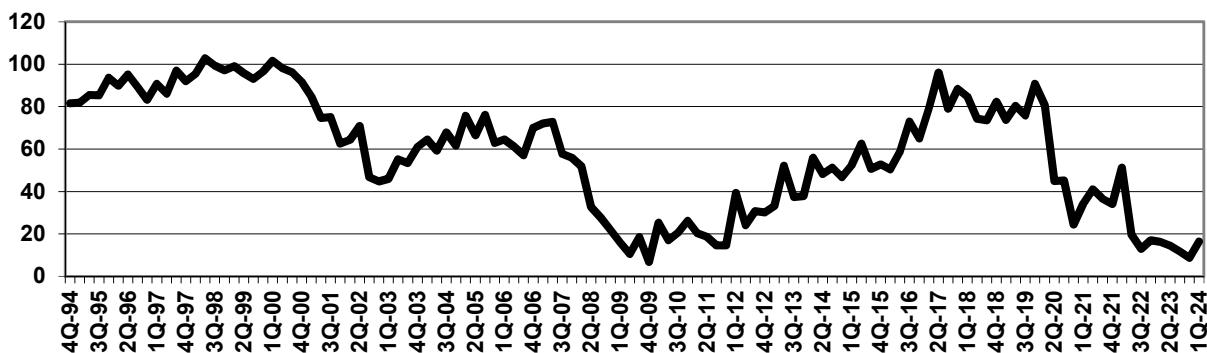

At the national level, the "Index of Consumer Sentiment" is among the most closely followed economic indicators. Reaction by securities markets to changes in the "Index of Consumer Sentiments" is not uncommon. Further, the "Index of Consumer Expectations" is one of the ten components of the Conference Board's "Leading Economic Indicators".
