# **Introduction to the Counselor Keys Effectiveness System**

A comprehensive school counseling program is multi-faceted and designed with continuous evaluation and modification in mind. The CKES aligns with the four components of a comprehensive school counseling program (Foundation, Management, Delivery and Accountability). CKES is an evaluation system that will allow the state to ensure consistency and comparability across districts, based on a common definition of professional school counselor effectiveness.

## **Primary Purpose of the Counselor Keys Effectiveness System**

The primary purpose of CKES is to:

- Optimize student learning and growth.
- Improve the quality of school counseling services by ensuring accountability for professional school counselor effectiveness.
- Contribute to successful achievement of the goals and objectives defined in the vision, mission, and goals of Georgia Public Schools.
- Provide a basis for improvement through productive school counselor performance appraisal and professional growth.
- Implement a performance evaluation system that promotes collaboration between the professional school counselor and evaluator and promotes self-growth, program effectiveness, and improvement of overall job performance.
