

Georgia Utility Contractors Association (GUCA)

April 7, 2025

As you'll see in the legislation listed below, the Governor's bills on tort reform, SB 68 and SB 69, passed the House and Senate and are now awaiting the Governor's signature! **This is a huge deal and is the most aggressive tort reform legislation passed in the country yet.**

SB 68 has caught the most focus of the two with it including negligent security, premises liability, collateral source, anchoring, bifurcation, and more sweeping changes!

This is the most sweeping tort reform legislation the country has ever seen with all topics covered under civil litigation.

The Governor's Office and other legislators are also working on legislation to revamp state business licensing boards and to make it easier for those getting a license and renewing a license to get it completed through the Secretary of State's Office. There is also legislation you'll find below regarding bidding with local government agencies.

GUCA's Annual Lobby Day was on the morning of Tuesday, February 4! Thank you to all who attended. It was the biggest lobby day we've had yet, and our government affairs firm, Thrash - Haliburton, had a number of legislative leaders come and address our group, answer questions, and more.

Our team is acting at the association's direction on all legislation and issues such as these above, and we will provide further updates in the future.

Legislators were back at the Gold Dome this past week for the last week of session. Lawmakers were in session last week on Monday, Wednesday, and Friday for Legislative Days 38 - 40 with Tuesday and Thursday being Committee Days and off days. The floor sessions and debates were long and lasted all days and nights for both chambers this past week, and they were there until late in the night on all three official legislative days.

As has been mentioned, Crossover Day is the last day that a bill can be passed out of its original chamber. That was in early March. However, legislative language can be and was attached to different bills after Crossover Day to keep language "alive" until the last day of session at midnight of April 4.

Georgia's General Assembly operates on a biennial process, so 2026 is the second year of the 2025-2026 legislative session. Legislation that did not pass in 2025 goes back to the committee from which it came for the 2026 session.

Thrash-Haliburton has been in constant communication with our leadership about issues and legislation coming up for our industry in the 2025-2026 session.

Here's to another great year for our industry in 2025 at the State Capitol!

Thrash-Haliburton is diligently watching and working to stop any detrimental legislation to our industry and push the legislation we support. Our governmental affairs team continues every day to work on, look out for and answer requests, needs and interests, as we act at the direction of the group's leadership. Please find legislation affecting our industry below:

2025 Regular Session

We are monitoring the following legislation, and watchful for any bills that may impact our industry.
