#### **Table of Contents: June, 2025 E-News:**

- **ACTIVITIES: Division of Professional Practice: November-December – see below**

We haven't written for some time (since March) as it's been a particularly busy year for us. Of key interest this month is our participation in the forthcoming ECP in Cyprus in early July and our ongoing monthly zoom meetings in which we discuss key issues in psychology.

#### **KEY ACTIVITIES of Division 17 to June, 2025**

##### **Conference Presentations:**

- **ECP (Cyprus: July, 2025):** Currently, our main focus is the Division 17 Symposium: ***"International Perspectives on Psychologists in Integrated Health Care: Equitable, Accessible and Innovative Models"*** (**LINK to the abstract**) we are running at the European Congress of Psychology 3.00pm on Wednesday 2<sup>nd</sup> July.  
Our symposium focuses on the role of psychologists in integrated health care, with our group representing international leaders from different psychological associations and countries around the world. We have been collaborating in this area of work since 2010 through the Division 17 of Professional Practice, convening yearly symposia at international Conferences (ICAP, ICP and ECP) to showcase our ongoing work. The symposium represents state of the art topics from different international perspectives.
- **ICAP (Florence: July, 2026):** we have submitted ideas for keynote speakers, invited symposia and other papers to the IAAP Executive for the Florence ICAP program and are well-advanced in finalising our ideas for this.

##### **Monthly Executive Committee Zoom meetings:**

We continue to meet monthly by zoom, with a growing membership now including members from Argentina, Ireland, Japan as well as the USA, Australia, Rwanda and India. Our June meeting is to be held on 24<sup>th</sup>/25<sup>th</sup> June, spanning multiple time zones.

Our focus is on latest topics relevant to the profession of psychology around the world – e.g. the revision and re-design of training pathways in Psychology in Australia; the move to registration of the profession in Ireland, etc. ...

Our meetings are convivial, consultative and collegial – with us all getting to know about our different ways of working in such widely spread places.

- **ECM: IAAP Early Career Marathon:**

Earlier in the year, several of our Division 17 Executive Team were involved in the provision of feedback/discussant videos to early career researcher presentations and attended part of the 4<sup>th</sup> Early Career Marathon – an amazing 24-hour event. Congratulations to the IAAP ECM Organising Committee who provide a wonderful opportunity to early career researchers and psychologists with an international opportunity to ‘show case’ their latest research projects. It was a wonderful event as always.
