

## **Doctoral Fellow University of Gent**

University of Gent (Belgium) is hiring! We are looking for a PhD candidate to conduct exciting research at the intersection of HRM, organizational behavior, and psychobiology.

Are you interested in using stress biomarkers in work and organizational research on team stress, conflict, and team dynamics in startup founding teams? Do you want to contribute with your scientific research to startup founding teams' entrepreneurial success and wellbeing? Then take a look at this offer! You will join a dynamic and ambitious research group with great colleagues
