Serving the Membership: 2020 and Beyond

The IAIABC has worked hard to address the timely issues impacting its members during the pandemic. Resources and services have included EDI Claims in XML; a telemedicine briefing; frequent jurisdictional discussion sessions on COVID-19; and Committee Week, in lieu of the The Forum. The Convention was transformed into a virtual event, with strong attendance and participation, including 42 jurisdictions and 66 industry organizations represented. Thank you to all members and conference attendees for your continued support this year.

Membership Report

Membership and member retention are up in 2020, with retention at its highest level since 2016. Twenty-two new members have joined the IAIABC this year, with fifteen members not renewing. We are in line with budget.

Financial Report

Thank you to sponsors for their continued financial support this year. Audit for 2019 was completed and accepted by the Board with no issues. There have been deviations from budget due to the pandemic. We are projecting a net income of around \$25,000-35,000 to end 2020. We have been re-working upcoming event contracts to limit financial impacts.
