Hello,

We are excited to announce that each week leading up to the 77th Annual Conference in Chicago, IL, we will be highlighting one of our esteemed CE (Continuing Education) speakers! This week, we're thrilled to shine the spotlight on **Paul Earley**, who will be sharing his expertise on **RecoveryMind Training: Acting Your Way into Recovery**.

Dr. Paul Earley has been an Addiction Medicine physician for 42 years. He treats all types of addiction disorders, specializing in the assessment and treatment of healthcare professionals with substance use disorders. He was the founding director of the Georgia Professional Health Program and now serves that program in an Emeritus role. He is the author of four books and numerous articles on addiction and its treatment. His two most recent looks are RecoveryMind Training and Recovery Skills Manual for RecoveryMind Training. He is a contributing author to the ASAM Textbook: Principles of Addiction Medicine, as an author of the chapter: Physician Health Programs and Addiction among Physicians. He is a contributing author to the most recent two editions of the The ASAM Criteria.

The objectives of Dr. Earley's CE presentation are outlined below:

1. Be able to describe how basic recovery behaviors are hijacked during the development of a substance use disorder.
2. Describe the four general areas of brain functioning that are rewired by primitive brain circuits and how action corrects these defects.
3. Delineate the advantages of movement and reenactment in deepening recovery thoughts and actions.

Stay tuned as we introduce additional CE speakers in the coming weeks. Our CE credits are approved by the appropriate accrediting bodies and can help you meet licensure and certification requirements. [Click here](#) to see the types of CE credits that are available.
