

PFAS Cost Recovery Program

The Kentucky Rural Water Association and the National Rural Water Association engaged the law firm of Napoli Shkolnik to file a cost recovery action to provide water and wastewater systems the opportunity to recover any current or future expenses for testing, treatment and remediation of PFAS contamination. Registering onto the cost recovery rolls is like an insurance policy without a premium and if asked by your customers, a strong positive message that the system has undertaken action to lessen any financial burden resulting from PFAS contamination.

Time is of the essence; we encourage all systems to register NOW!

NO COST

- Zero upfront cost to register the utility onto the cost rolls.
- A system must be registered prior to any settlement or judgement being reached in order to benefit.

NO TESTING REQUIRED

- There is no threshold or cost to register onto the cost recovery rolls.
- Systems should register regardless of testing or detection status.
