Ver.: 25 July 2024

Consumer Notification of Service Line Materials

The federal Lead and Copper Rule (Revisions) (40 CFR 141, Subpart I) requires all water systems with lead, galvanized requiring replacement (GRR), or lead status unknown service lines in their inventory to inform all persons served by the water system at the service connection with a lead, GRR, or lead status unknown service line.

What to submit to KY Division of Water: This document, along with a copy of the notification(s) provided to the customer, must be submitted to the Division of Water by July 1, 2025. Water Systems are encouraged to submit the certification document as soon as notifications are complete. Water Systems are not required to use this form; it is provided for convenience. Systems may submit other forms prepared by other entities or a letter, as long as the required information is included.

To submit, you may mail the documents, or upload to EEC eForm 169: Drinking Water Information and Data Submittal.

If you have any questions, please email us at DrinkingWaterCompliance@ky.gov.

Name of System _____ PWS ID: _____

I certify, as the responsible person (or authorized representative) of the water system indicated above, the notification has been provided to all persons served by a lead, galvanized requiring replacement, or lead status unknown service lines in accordance with the delivery, content, and deadlines of 40 CFR 141.85(e). (40 CFR 141.90(e)(13), and 40 CFR 141.90(f)(4)).

The notification met the following criteria (please initial each line):

___ Notification was sent to affected customers prior to November 15, 2024. (141.85(e)(2))

___ For new customers in buildings served by lead, galvanized requiring replacement, or unknown service lines, a notice meeting the criteria below will also be provided at the initiation of service. (141.85(e)(2))

___ The notification included information about the material makeup of the service line (lead, galvanized requiring replacement as defined in 40 CFR 141.84(a)(4), or an unknown material), including information about both the utility-owned sections and customer-owned sections of the service line where relevant. (141.85(e)(1))

___ The notification includes (141.85(e)(3)):

- Steps a person can take to reduce lead exposure
• Information about the opportunities to replace lead or galvanized service lines
• Ways to identify the material of unknown service lines

___ The following EPA-mandated message was included in each letter:

Health effects of lead. Exposure to lead in drinking water can cause serious health effects in all age groups. Infants and children can have decreases in IQ and attention span. Lead exposure can lead to new learning and behavior problems or exacerbate existing learning and behavior problems. The children of women who are exposed to lead before or during pregnancy can have increased risk of these adverse health effects. Adults can have increased risks of heart disease, high blood pressure, kidney, or nervous system problems. (141.85(a)(1)(ii))

___ With this document, the water system attached a copy of the notification(s) sent to the customers. (141.90(f)(4)(6))
