We offer HR and IT advisory services through our Outsource practice, including recruiting doctors and staff. Our goal is to help you work smarter, operate efficiently, and grow stronger.

History of Lee County Medical Society

The Lee County Medical Society (LCMS) is an organization dedicated to the health of all residents in our communities.

Lee County Medical Society (LCMS) was formed in 1927 with just a handful of physicians. Today, virtually every specialty is represented in our medical community and we stand strong as a professional organization.

Only **Doctors of Medicine** or **Osteopathy** who have satisfactorily completed an internship and/or residency program approved by the accreditation Council for Graduate Medical Education or the American Osteopathic Association are eligible for society membership.

Our members have undergone close scrutiny by virtue of our credentialing process which verifies a physician’s medical education background and other information.

We are committed to providing the public with the most caring modern and efficient health care system available offering over 700 active dedicated physician members ready to respond to any healthcare need. The medical society is a voluntary organization. **All our members share our motto of *Physicians Caring for Our Community*.**

Is your medical liability insurer invested in shareholder interests, or **INVESTED IN YOU?**

Why choose a medical liability insurer that rewards investors versus rewarding you? At The Doctors Company we answer only to physicians like you. Not Wall Street. That's why we've delivered \$470 million in dividends to our members. And it's why our unrivaled Tribute® Plan has awarded over \$150 million to doctors who have spent their careers advancing the practice of good medicine.

Employee Benefit Program

Private Practices can now offer the same benefits as their corporate counterparts.

The Lee County Medical Society in partnership with the Marion County Medical Society, united its members and created a single, large, fully-insured comprehensive employee benefits insurance program in 2015. Physician Wellness Program

The Physician Wellness Program (PWP) provides a safe harbor for active LCMS physicians to address normal life difficulties in a confidential and professional environment. A physician’s life can be difficult. Problems with the current health care delivery system, maintaining a healthy work/life/family balance, and dealing with the normal stresses of everyday life do take their toll on physicians.

It is important that we function at our best in all areas of our life.

By addressing areas of difficulty, we can decrease our stress levels and increase our level of resilience and effectiveness.

The Physician Wellness Program works with two independent, local psychology groups that provide member physicians with up to three counseling sessions per calendar year.

This is a confidential and free member benefit. No insurance will be billed and LCMS will not be given any personal information about those who use the program. LCMS pays a monthly bill based on the number of sessions provided. Full details on how to enroll or donate to this program can be found at www.lcmsfl.org/our-programs.

“The most important patient we have to take care of is the one in the mirror.”

— Robert Wah, M.D.

Florida Patient's Bill of Rights and Responsibilities

Florida law requires that your health care provider or healthcare facility recognize your rights while you are receiving medical care and that you respect the healthcare provider's or healthcare facility's right to expect certain behavior on the part of patients. You may request copy of the full text of this law from your healthcare provider or healthcare facility. A summary of your rights and responsibilities follows:

A PATIENT HAS A RIGHT TO:

- Be treated with courtesy and respect, with appreciation of his or her individual dignity, and with protection of a need for privacy.
- Obtain a prompt and reasonable response to questions and requests.
- Know who is providing medical services and who is responsible for his or her care.
- Know what patient support services are available, including whether an interpreter is available if he or she does not speak English.
- Know what rules and regulations apply to his or her conduct.
- Be given information by the health care provider concerning diagnosis, planned course of treatment, alternatives, risks, and prognosis.
- Refuse any treatment, except as otherwise provided by law.
- Be given, upon request, full information and necessary counseling on the availability of known financial resources for his or her care.
- Know, upon request and in advance of treatment, whether the healthcare provider or healthcare facility accepts the Medicare assignment rate.
- Receive, upon request, prior to treatment, a reasonable estimate of charges for medical care.
- Receive a copy of a reasonably clear and understandable, itemized bill and, upon request, to have the charges explained.
- Impartial access to medical treatment or accommodations, regardless of race, national origin, religion, handicap, or source of payment.
- Treatment for any emergency medical condition that will deteriorate from failure to provide treatment.
- Know if medical treatment is for purposes of experimental research and to give his or her consent or refusal to participate in such experimental research.
- Express grievances regarding any violation of his or her rights, as stated in Florida law, through the grievance procedure of the health care provider or health care facility, which served him or her, and to the appropriate state-licensing agency.

A PATIENT IS RESPONSIBLE FOR:

- Providing to the health care provider, to the best of his or her knowledge, accurate and complete information about present complaints, past illnesses, hospitalizations, medications, and other matters relating to his or her health.
