History of Lee County Medical Society

The Lee County Medical Society (LCMS) is an organization dedicated to the health of all residents in our communities.

Lee County Medical Society (LCMS) was formed in 1927 with just a handful of physicians. Today, virtually every specialty is represented in our medical community and we stand strong as a professional organization.

Only **Doctors of Medicine** or **Osteopathy** who have satisfactorily completed an internship and/or residency program approved by the accreditation Council for Graduate Medical Education or the American Osteopathic Association are eligible for society membership.

Our members have undergone close scrutiny by virtue of our credentialing process which verifies a physician’s medical education background and other information.

We are committed to providing the public with the most caring modern and efficient health care system available offering over 1,100 active dedicated physician members ready to respond to any healthcare need. The medical society is a voluntary organization. **All our members share our motto of *Physicians Caring for Our Community*.**

History of Geographic Service Areas

1972	Lee County Medical Society, Inc. includes physician members in only LEE county
1959-1972	Medical Society included physicians in LEE and HENDRY counties
1958-1959	Medical Society included physicians in LEE, CHARLOTTE and HENDRY counties
1951-1957	Medical Society included physicians in LEE, CHARLOTTE, COLLIER and HENDRY counties
1941-1950	Medical Society included physicians in LEE, COLLIER and HENDRY counties

LCMS Services to the Public

Referral Service — Lee County Medical Society provides referrals to members in all specialties by geographic area regardless of hospital affiliation.

McCourt Scholarship Fund — provides a scholarship for children with diabetes to go to the Florida camp for children and youth with diabetes. It provides a fun atmosphere where they learn how to manage and live with diabetes.

Job Center — provides a web-based employment service for healthcare providers to find opportunities at Lee County-based medical practices, facilities or hospitals.

Website — find an LCMS physician by name or specialty with information on their educational backgrounds and links to their practice websites. Also provides community health resources.

HOW MUCH ASSURANCE.

do you have in your malpractice insurance?

When choosing a medical malpractice insurer, healthcare professionals must consider which insurer has their best interests at heart. Do you want the assurance of a carrier owned and led by physicians, with an A rating from AM Best and Fitch Ratings, with \$7.8 billion in assets, and a financial award program that's paid more than \$200 million in awards to retiring members? Or do you want an insurer that's focused on paying its investors?

Join us and discover why our over 100,000 members give us a 93% satisfaction rating when it comes to exceptional service.

YOUR PRACTICE. OUR PRIORITY.

Physicians and healthcare providers face a complex web of legal challenges—practice formation, real estate transactions, compliance, employment matters, negotiating and drafting contracts for the practice, litigation, and more. We understand what's at stake. That's why healthcare professionals across Southwest Florida trust our attorneys to serve as their legal partner and, when needed, general counsel.

Physician Wellness Program

The Physician Wellness Program (PWP) provides a safe harbor for active LCMS physicians to address normal life difficulties in a confidential and professional environment. A physician’s life can be difficult. Problems with the current health care delivery system, maintaining a healthy work/life/family balance, and dealing with the normal stresses of everyday life do take their toll on physicians.

It is important that we function at our best in all areas of our life. By addressing areas of difficulty, we can decrease our stress levels and increase our level of resilience and effectiveness.

The Physician Wellness Program works with two independent, local psychology groups that provide member physicians with up to three counseling sessions per calendar year.

This is a confidential and free member benefit. No insurance will be billed and LCMS will not be given any personal information about those who use the program. LCMS pays a monthly bill based on the number of sessions provided. Full details on how to enroll or donate to this program can be found at www.lcmsfl.org/our-programs.

“The most important patient we have to take care of is the one in the mirror.”

Florida Patient's Bill of Rights and Responsibilities

Florida law requires that your health care provider or healthcare facility recognize your rights while you are receiving medical care and that you respect the healthcare provider's or healthcare facility's right to expect certain behavior on the part of patients. You may request copy of the full text of this law from your healthcare provider or healthcare facility. A summary of your rights and responsibilities follows:

A PATIENT HAS A RIGHT TO:

- Be treated with courtesy and respect, with appreciation of his or her individual dignity, and with protection of a need for privacy.
- Obtain a prompt and reasonable response to questions and requests.
- Know who is providing medical services and who is responsible for his or her care.
- Know what patient support services are available, including whether an interpreter is available if he or she does not speak English.
- Know what rules and regulations apply to his or her conduct.
- Be given information by the health care provider concerning diagnosis, planned course of treatment, alternatives, risks, and prognosis.
- Refuse any treatment, except as otherwise provided by law.
- Be given, upon request, full information and necessary counseling on the availability of known financial resources for his or her care.
- Know, upon request and in advance of treatment, whether the healthcare provider or healthcare facility accepts the Medicare assignment rate.
- Receive, upon request, prior to treatment, a reasonable estimate of charges for medical care.
- Receive a copy of a reasonably clear and understandable, itemized bill and, upon request, to have the charges explained.
- Impartial access to medical treatment or accommodations, regardless of race, national origin, religion, handicap, or source of payment.
- Treatment for any emergency medical condition that will deteriorate from failure to provide treatment.
- Know if medical treatment is for purposes of experimental research and to give his or her consent or refusal to participate in such experimental research.
- Express grievances regarding any violation of his or her rights, as stated in Florida law, through the grievance procedure of the health care provider or health care facility, which served him or her, and to the appropriate state-licensing agency.

A PATIENT IS RESPONSIBLE FOR:

- Providing to the health care provider, to the best of his or her knowledge, accurate and complete information about present complaints, past illnesses, hospitalizations, medications, and other matters relating to his or her health.
- Reporting unexpected changes in his or her condition to the health care provider.
- Reporting to the health care provider whether he or she comprehends a contemplated course of action and what is expected of him or her.
- Following treatment plans recommended by health care provider.
- Keeping appointments and, when he or she is unable to do so for any reason, for notifying the health care provider or health care facility.
- His or her actions if he or she refuses treatment or does not follow the health care provider's instructions.
- Assuring that the financial obligations of his or her health care are fulfilled as promptly as possible.
- Following health care facility rules and regulations affecting patient care and conduct.
