

UTILITIES TECHNICIAN

BOOTHBAY REGION WATER DISTRICT

Do you currently work within a water treatment and distribution environment or have a career interest in learning about the profession? Are you searching for a position where your hard work and expertise have a positive impact within the community? Do you seek a work environment where co-workers believe a team effort and a “roll up your sleeves” attitude is best? If you answered ‘yes’ then we want to hear from you...Today!

Our ideal candidate will possess a class II or III Water Operators License or be able to receive certification within two or four years respectively. Work history should highlight any experience installing, repairing and testing water treatment and distribution systems in accordance with current plumbing regulations or other related experience. Effectively communicating with co-workers, office staff and our customers on a daily basis is a most important quality. Better than average math skills are a must. Position will require “on-call” work hours. Candidates must reside within a reasonable travel distance in order to quickly respond to emergency situations. The rate of pay is \$23 per hour.

Interested? Let us know by completing our employment application which can be found at <https://bbrwd.org/career-opportunities/> or picking an application up at our office located at 184 Adams Pond Road, Boothbay, Maine 04537. In addition to the employment application form, submission of a resume is acceptable. Please include any current certifications if any.
