Arial Regular, 8pt

We're working with the U.S. Environmental Protection Agency to meet a mandate to identify and catalog materials used in the service lines that bring water from the street to houses and businesses to ensure no lead is present. Our goal is to provide safe drinking water for all, and if lead is present, it can cause serious health problems, especially among infants, young children, and pregnant women.

Here's How You Can Help

- 1 Snap a photo of your water meter with your cell phone or camera. Include a few inches of pipe on both sides of the meter. If you have a basement, the meter will likely be found there. Check out the sample photo below to see what your water meter might look like.
- 2 Send/email/upload your photo, name, address, and phone number to:

Customize here with Water Utility name
Water Utility address (on one line)
Email address
URL to upload photos

Please send us your photo by XX/XX/2024.
Questions? Give us a call at (XXX) XXX-XXXX.

By working together, we can ensure safe drinking water for all in our community.
Thank you for doing your part!

We're working with the U.S. Environmental Protection Agency to meet a mandate to identify and catalog materials used in the service lines that bring water from the street to houses and businesses to ensure no lead is present. Our goal is to provide safe drinking water for all, and if lead is present, it can cause serious health problems, especially among infants, young children, and pregnant women.

Here's what we need from you, in just 4 easy steps:

- 1 Grab your cell phone or camera.
- 2 Locate your water meter. If you have a basement, the meter will likely be found there. No basement? Look in a utility room, or wherever your furnace and plumbing pipes are located. Check out these sample photos to see what your water meter might look like.
- 3 Snap a Photo. Include a few inches of pipe on both sides of the meter.
- 4 Send/email/upload your photo (please include your name, address, and the best phone number to reach you if we have questions) to:
