

“Energize your staff. Strengthen systems. Support every student.”

Professional Development That Transforms Schools

TILL360 offers engaging, practical, and research-based PD that meets educators where they are. Whether you need behavior systems, SEL tools, or a schoolwide reset, we have the tools to help your team thrive.

MTSS (Multi-Tiered System of Supports).

Tired of siloed systems and inconsistent support across your school?

MTSS unifies academic, behavioral, and SEL supports into one consistent framework. This PD helps teams align their systems, use data to drive decisions, and build tiered supports that stick.

RTI (Response to Intervention)

When students fall behind, do your teams have a clear roadmap to respond?

RTI provides a step-by-step system for identifying student needs and delivering targeted academic interventions. Educators walk away with tools to boost achievement and close learning gaps.

Trauma-Informed Care

Traditional discipline doesn't work for students with trauma.

This PD helps educators understand trauma responses and build safe, predictable classrooms. Learn how to reduce escalations and support healing.

And more!

Restorative Practices

High suspension rates? Strained relationships?

This PD teaches educators how to resolve conflict through conversation and connection. Restorative practices rebuild trust and reinforce accountability—without losing structure.

PBIS

If your teachers feel like they're constantly reacting to misbehavior, this PD is for you.

PBIS shifts your school toward proactive, consistent behavior systems. Teachers learn how to reinforce positive behavior and create classrooms that run smoothly.

Classroom Management

If your classrooms feel chaotic or inconsistent, this PD helps bring calm and control back.

Teachers will learn proven strategies to set clear expectations, establish routines, and respond to misbehavior with confidence—not frustration.

Self-Care & Relationships

If burnout is real in your building, this workshop brings energy back.

Educators leave with practical wellness strategies, emotional support tools, and renewed connection with each other.

“Know your colors. Know your people.
Create stronger connections.”

REAL COLORS® Workshops

In-person or virtual

Staff teams or student groups!

What Is Real Colors® ?

Real Colors® is a four-color personality instrument and workshop that turns temperament theory into a fun, right-brain learning experience—using color, stories, and interactive tasks. Participants leave with a common, memorable language to explain Gold, Green, Blue, and Orange temperaments—unlocking communication, empathy, and retention that lasts.

Key Benefits of Real Colors®

- **Enhances self-awareness** — Participants gain a deeper understanding of their own communication style, motivation, and decision-making.
- **Improves team collaboration** — Staff and students learn how to work better together by appreciating personality differences rather than clashing with them.
- **Reduces conflict and miscommunication** — A shared language helps resolve misunderstandings quickly and respectfully.
- **Builds stronger relationships** — Whether in the classroom or staff room, Real Colors fosters empathy, trust, and connection.
- **Engaging and easy to remember** — With its color-based approach, participants retain insights long after the workshop ends—making it fun, practical, and lasting.

Workshop Types

Foundational Workshop (Core Four Colors)

- Experience: In-person or virtual.
- Audience: Staff teams or student groups.
- Ideal for discovering your primary color, learning the basics of communication differences, and building a common vocabulary.

Advanced Modules (Deep Dives)

- Real Applications: Explore secondary colors, align temperament with mission, and practice navigating difficult conversations.
- Real Teams, Real Leadership, Real Solutions: Further modules help groups master feedback styles, build trust, and lead more effectively.
