MEMBER SPOTLIGHT

Sure Steel Achieves AC478 Accreditation

Sure Steel, Inc. started its journey in 1993 as a small steel erection company with a mission to deliver top-notch products to its clients. Now, after nearly three decades of excellence, Sure Steel stands as a nationally ranked specialty contractor, delivering expertise in structural steel, metal building systems, precast, insulated metal panels, and mass timber.

Headquartered in South Weber, Utah, with satellite offices in Ogden, UT; Dallas, TX; Charlotte, NC; Phoenix, AZ; Des

Moines, IA; Portland, OR; and Orlando, FL, Sure Steel continues to expand its reach and build strong partnerships nationwide. Upholding core values of ability, integrity, benevolence, safety, continuous improvement, and environmental responsibility, Sure Steel remains committed to providing invaluable solutions to complex projects, ensuring top-quality workmanship, and delivering on-time results for its clients.

That commitment to quality was recently affirmed when Sure Steel earned its IAS AC478 accreditation for Metal Building Systems. As Micah Stanton, Director of Quality, explained:

"AC478 accreditation represents more than compliance, it reflects a culture of quality embedded in how we plan, manufacture, and erect metal building systems. At Sure Steel, we view quality as a continuous journey, and pursuing this accreditation challenged us to strengthen our processes, enhance training, and further align our field execution with industry best practices. This recognition affirms the dedication of our teams and demonstrates our commitment to delivering consistent, high-performance results that meet both code requirements and client expectations."

For more information about Sure Steel, visit www.suresteel.com. For more information about AC478, visit www.mbcea.org/ac478-accreditation.
