Officer Safety Awareness Training (OSAT)

OSAT presents information on the following topics:

- Officer and Offender Perceptions
- Foot Pursuits
- Drawn Gun
- Arrest Situations & Handcuffing
- Ambushes & Unprovoked Attacks
- Is Today Your Day?
- Street Combat Veterans
- Traffic Stops
- Will to Win & Will to Survive
- The Deadly Mix & Conclusion
- Training

Visit the OSAT Community on the Law Enforcement Enterprise Portal (LEEP) JusticeConnect site for more information. If you don't have a LEEP account, select the "apply for an account" button on LEEP and follow the directions.

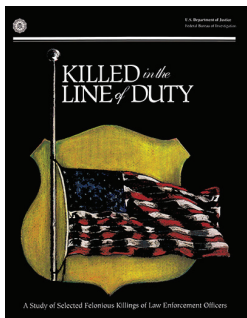

About OSAT

Established in April 2004, the Officer Safety Awareness Training (OSAT) program provides free training for our domestic and international law enforcement partners. The OSAT program uses data and research collected from incidents during which officers were feloniously or accidentally killed or assaulted in the line of duty and focuses on why these incidents occurred. OSAT's objective is to prevent deaths and serious injuries by helping law enforcement identify areas to supplement current training.

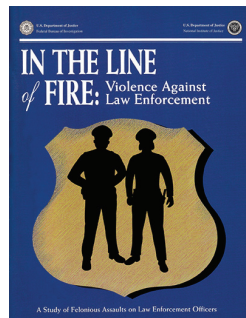

Since 1992, the FBI has completed four research studies that support the OSAT program: *Killed in the Line of Duty*, *In the Line of Fire*, *Violent Encounters*, and *Ambushes and Unprovoked Attacks*. The researchers of each project studied what led to the deaths and assaults of police officers. They interviewed officers and offenders involved in specific assaults to compile vital information, then created demographic and behavioral profiles for the interviewees. In each training session, OSAT uses the video recordings of the officers and offenders, allowing attendees to hear their firsthand accounts.

For digital copies of the research studies, visit the OSAT Community of JusticeConnect on LEEP at: <https://justiceconnect.cjis.gov/communities/community/osat>.

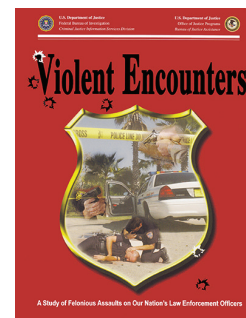

Research Studies

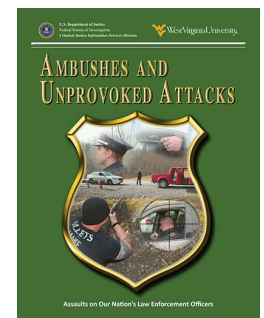

Killed in the Line of Duty: A Study of Selected Felonious Killings of Law Enforcement Officers
(September 1992)

In the Line of Fire: Violence Against Law Enforcement—A Study of Felonious Assaults on Law Enforcement Officers
(October 1997)

Violent Encounters: A Study of Felonious Assaults on Our Nation's Law Enforcement Officers
(August 2006)

Ambushes and Unprovoked Attacks: A Study of Assaults on Our Nation's Law Enforcement Officers
(April 2019)
