

Residence Hall Access Control

Residence Hall Access Control ensures that entry to each dormitory building is limited exclusively to the members of delegations assigned to that specific building.

Access to the dormitories is strictly prohibited for family members, the general public, and athletes or coaches from delegations not assigned to that dormitory.

Certain dormitories include a cafeteria. Individuals who possess the appropriate credentials are allowed to enter these cafeterias to eat but are not allowed to access the rest of the dormitory. Credentials must be presented upon entry to ensure that only authorized people are served.

There are certain situations where de-escalation techniques may be required as many times family members or athletes from other delegations will attempt to enter the residence hall in an attempt to connect with an athlete or coach.

The shift for this position is 1600hrs – 2200hrs.

A volunteer uniform shirt and a portable radio will be provided. Dinner is also included and will be at one of the residence hall cafeterias.
