

Cutting Edge Drug Discovery & Development Symposium in Michigan

May 11, 2026 | Ann Arbor

You're invited to the **Drug Discovery & Development Symposium**

The Drug Discovery & Development Symposium brings together biopharma professionals, contract research organizations (CROs), faculty, students and others for a day of learning, networking, and collaboration. It's a unique opportunity to engage with Michigan's biotechnology community, explore drug discovery efforts, and discover new avenues for partnership.

KEY PROGRAM HIGHLIGHTS

- AI and the Future of Drug Discovery
- Radiopharmaceuticals: The Next Frontier
- Drug Development and Regulatory Strategy
- Translating Innovation to Market

WHO SHOULD ATTEND?

- Faculty, researchers, and students from Michigan's leading universities
- Biopharma professionals and CRO representatives
- Entrepreneurs, innovators, and members of the biotechnology community
- Anyone invested in advancing drug discovery and development

SCIENTIFIC POSTERS

Scientific poster submissions are welcome. There is no cost to submit an abstract, but event registration is required for submission to be considered.

REGISTRATION

Register: michbio.org/drug-discovery-and-development-symposium.

Discount registration is provided to students and academic faculty/staff.
