FREIGHT SERVICES

WHAT ARE FREIGHT SERVICES?

As the official service contractor, Exagere is the exclusive provider of freight services. Material handling includes unloading your exhibit material, storing up to 30 days in advance at the warehouse address, delivering to the booth, the handling of empty containers to an from storage, and removing of material from the booth for reloading onto outbound carriers. It should not be confused with the cost to transport your exhibit material to and from the convention or event. You have two options for shipping your advance freight - either to the warehouse or directly to show site.

BENEFITS OF ADVANCE SHIPPING TO WAREHOUSE

Storage of materials for up to 30 days prior to your show. Delivery of shipments to your booth by your published set-up time. Some convention center and hotels do not have the facilities for receiving or storing freight. You can also save valuable set-up time by having your items in your booth when you arrive.

HOW TO SHIP TO THE WAREHOUSE

We will begin to accept freight 30 days prior to move-in. To ensure timely arrival of your materials to show site, freight should arrive by the deadline date listed on the Shipping Information page. Please take the time to make sure that your display and products are packed neatly and secured. Remove all old shipping and empty storage labels. Fill out the enclosed WAREHOUSE shipping labels and ensure that each piece of your freight is labeled that includes the exhibiting company name and booth number. If you decide to use your own labels please make sure that each piece has a label with the exhibiting name, booth number, and name of the event.

Warehouse shipments will be accepted Monday through Friday 9am until 4pm, except holidays. It is not necessary for you to make an appointment for your delivery. The warehouse will accept crates, cartons, skids, trunks/cases and carpets. Shipments consisting of loose or pad-wrapped material MUST be sent directly to show site. All shipments must have a bill of lading or delivery slip indicating the number of pieces and type of merchandise. Certified weight tickets must accompany all shipments. Shipments received without receipts or freight bills, such as Federal Express and UPS, will be delivered to the booth without guarantee of piece count or condition.

Warehouse Freight will be delivered to your booth prior to exhibitor setup. All freight should arrive to the warehouse no later than the posted deadline date for your event. Please refer to Shipping Information page for your deadline date. Freight received after the deadline date will incur an additional charge.

HOW TO SHIP TO SHOW SITE

Shipments sent directly to show site will only be accepted during exhibitor move-in. Please refer to the Shipping Information page for the specific exhibitor move-in dates and times.

Consign all domestic shipments c/o EXAGERE EXPOSITION SERVICES.

Please ensure that each piece of your freight is labeled with a label that includes the exhibiting company name, booth number and the name of the event.

All shipments must have a bill of lading or delivery slip indicating the number of pieces, type of merchandise and weight.

All shipments must also contain a certified weight ticket.

WHAT ABOUT PREPAID OR COLLECT SHIPPING CHARGES?

Collect shipments will be returned to the delivery carrier. To ensure that your freight does not arrive collect, mark your bill of lading as prepaid. Prepaid designates that the transportation charges will be paid by the exhibitor or a third party.

HOW DO I ESTIMATE MY MATERIAL HANDLING CHARGES?

• Charges will be based on the weight of your shipment. Each shipment received is considered separately. The shipment weight will be rounded to the next 100 pounds. Each 100 pounds is considered one "cwt." (one hundred weight). All shipments are subject to reweigh.

On the Order Form, select whether the freight will arrive at the warehouse or be sent directly to show site.

Next, select the category that best describes your shipment. There are three categories of freight:

Crated: material that is skidded or is in any type of shipping container that can be unloaded at the dock with no additional handling required.

Special Handling: material delivered by the carrier in such a manner that it requires additional handling, such as ground unloading, stacked and constricted space unloading, designated piece unloading, loads mixed with pad-wrapped material, loads failing to maintain shipping integrity, carpet and/or pad-only shipments, and shipments that require additional time, equipment or labor to unload. Federal Express and UPS are included in this category due to their delivery procedures.

Uncrated: material that is shipped loose or pad-wrapped, and/or unskidded machinery without proper lifting bars or hooks. Add overtime charges for inbound if material is delivered to the booth during the overtime period stated on Show Facts. This includes both warehouse and show-site shipments.

(cont.)

Add overtime charges for outbound if material is loaded onto the outbound carrier during the overtime period stated on Shipping Information page.

Add the late delivery charge listed on the Order Form if the shipment is accepted at the warehouse or at show site after the deadline date listed on Shipping Information page.

The above services, whether used completely or in part, are offered as a package and the charges will be based on the total inbound weight of the shipment.

Shipments received without receipts or freight bills, such as UPS and Federal Express, will be delivered to the booth without guarantee of piece count or condition.

WHAT HAPPENS TO MY EMTIES DURING THE SHOW?

Pick up "Empty Labels" at the Service Center. Place a label on each container. Make sure all labels have your company name and correct booth number. Labeled containers will be picked up periodically and stored in non-accessible storage during the show.

At the close of the show, the empty containers will be returned to the booth in random order. Depending on the size of the show, this process may take several hours.

HOW DO I SHIP MY MATERIALS AFTER THE CLOSE OF THE SHOW?

Each shipment must have a completed Material Handling Agreement in order to ship materials from the show. All pieces must be labeled individually.

To save time, complete and submit the Outbound Shipping Form in advance, or you may contact the Service Center at show site for your shipping documents. The Material Handling Agreement and labels will be processed and available prior to show closing.

After materials are packed, labeled, and ready to be shipped, the completed Material Handling Agreement must be turned in at the Service Center.

Call your designated carrier with pick-up information. Please refer to Show Facts for specific dates and times. In the event your selected carrier fails to show on final move-out day, your shipment will either be rerouted to Exagere's carrier choice or delivered back to the warehouse at exhibitor's expense.

For your convenience, show-recommended carriers will be on site to handle outbound transportation.

WHERE DO I GET A FORKLIFT?

Forklift orders to install or dismantle your booth after materials are delivered may be ordered in advance or at show site. We recommend that you order in advance to avoid additional charges at show site. Refer to the Order Form for available equipment.

Advance and show-site orders for equipment and labor will be dispatched once a company representative signs the labor order at the Service Center.

Start time is guaranteed only when equipment is requested for the start of the working day.

DO I NEED INSURANCE?

Be sure your materials are insured from the time they leave your firm until they are returned after the show. It is suggested that exhibitors arrange all-risk coverage. This can be done by riders to your existing policies.

All materials handled by Exagere are subject to the enclosed Terms and Conditions. Other available services (may not be available in all locations)

SPECIAL HANDLING DEFINITIONS

Special handling applies to shipments that are loaded by cubic space and/or packed in such a manner as to require additional labor/handling, such as ground unloading, constricted space unloading, designated piece unloading, carpet/pad only shipments or stacked shipments. Also included are shipment integrity, alternate delivery locations, mixed shipments, and shipments without individual bills of lading. Shipments loaded in this manner require additional time, labor, or equipment, to unload, sort and deliver.

What is Ground Loading/Unloading?

Vehicles that are not dock height, preventing the use of loading docks, such as U-hauls, flat bed trailers, double drop trailers, company vehicles with trailers that are not dock level, etc.

What is Constricted Space Loading/Unloading?

Trailer loaded "high and tight" shipments that are not easily accessible. Freight is loaded to full capacity of trailer – top to bottom, side to side. One example of this is freight that is loaded down one side of a trailer that must be bypassed to reach targeted freight.

What is Designated Piece Loading/Unloading?

Drivers that require the loading crew to bring multiple pieces of the freight to the rear of the trailer to select the next piece, having to remove freight from the trailer then reload to fit or the trailer must be loaded in a sequence to ensure all items fit.

What are Stacked Shipments?

Shipments loaded in such a manner requiring multiple items to be removed to ground level for delivery to booth. Stacked or "cubed out" shipments, loose items placed on top of crates and/or pallets constitute special handling.

What is Shipment Integrity?

Shipment integrity involves shipments on a carrier that are intermingled, or delivered in such a manner that additional labor is needed to sort through and separate the various shipments on a truck for delivery to our customers.

What is Alternate Delivery Location?

Alternative delivery location refers to shipments that are delivered by a carrier that requires us to deliver some shipments to different levels in the same building, or to other buildings in the same facility.

What are Mixed Shipments?

Mixed shipments are defined as shipments of mixed crated and uncrated goods, where the percentage of uncrated is minimal and does not warrant the full uncrated rate for the shipment, but does require special handling. Exagere defines special handling for mixed loads as having less than 50% of the volume as uncrated.

What does it mean if I have "No Documentation"?

Shipments arrive from a small package carrier (including, among others, Federal Express, UPS & DHL) without an individual Bill of Lading, requiring additional time, labor and equipment to process.

What is the difference between Crated and Uncrated Shipments?

Crated shipments are those that are packed in any type of shipping container that can be unloaded at the dock with no additional handling required. Such containers include crates, fiber cases, cartons, and properly packed skids. An uncrated shipment is material that is shipped loose or pad-wrapped, and/or unskidded without proper lifting points.

What about carpet only shipments?

Shipments that consist of carpet and/or carpet padding only require additional labor and equipment to unload.

EXHIBITOR agrees that any and all claims for loss or damage must be submitted to EXAGERE immediately at the show site and in any case not later than thirty (30) business days after the conclusion of the show or exposition (for purposes of claim reporting, the 'conclusion' of the show shall be construed as the time when EXHIBITOR'S materials are delivered to the carrier for transportation from the show site or from EXAGERE'S warehouse). All claims reported after thirty (30) business days will be rejected. In no event shall a suit or action be brought against EXAGERE more than one year after the date of loss or damage occurred.

a. PAYMENT FOR SERVICES MAY NOT BE WITHHELD. In the event of any dispute between the EXHIBITOR and EXAGERE relative to any loss, damage, or claim, such EXHIBITOR shall not be entitled to and shall not withhold payment, or any partial payment, due to EXAGERE for its services, as an offset against the amount of any alleged loss or damage. Any claims against EXAGERE shall be considered a separate transaction, and shall be resolved on its own merits.

b. MAXIMUM RECOVERY. THE DECLARED VALUE DOES NOT APPLY TO THE SERVICES PROVIDED BY EXAGERE if found liable for any loss. EXAGERE'S sole and exclusive MAXIMUM liability for loss or damage to EXHIBITOR'S materials and EXHIBITOR'S sole and exclusive remedy is limited to repair or replacement with like kind and quality, subject to a dollar amount limited equal to the amount paid by EXHIBITOR to EXAGERE for material handling services during the show or exposition under this contract.

In no event shall EXAGERE be liable to the EXHIBITOR or to any other party for special, collateral, exemplary, indirect, incidental, or consequential damages, whether such damages occur either prior to, subsequent to, or are alleged as a result of tortious conduct, failure of the equipment or services of EXAGERE or breach of any of the provisions of this agreement regardless of the form of action, whether in contract or in tort, including strict liability and negligence, even if EXAGERE has been advised or has notice of the possibility of such damages or for any damages caused by EXHIBITOR'S failure to perform EXHIBITOR'S responsibilities. Such excluded damages include but are not limited to: loss of profits, loss of use or interruption of business, or other consequential or indirect economic loss(s).

- EXHIBITOR'S violation of Federal State, County or Local ordinances.
- EXHIBITOR'S violation of Show Regulations and/or Rules as published and set forth by Facility and/or Show Management.

13. MISCELLANEOUS. The EXHIBITOR acknowledges that he or she has read this agreement, understands it and agrees to be bound by its terms, and further agrees that it is the complete and exclusive agreement between the parties. The invalidity or unenforceability of any provision hereof shall not affect, modify, or impair the validity and enforceability of all other provisions herein.

CUSTOMER GUIDELINES FOR SUBMITTING GRAPHICS ARTWORK

Our goal is to provide you with the best possible quality graphics for your event or exhibit. You can help us in that effort by providing digital art files using the following guidelines. If you are sending us completed, print-ready files, please pass the following information on to your graphics designer or art department. Two overall considerations for submitting acceptable artwork involves proper resolution or size of the file to avoid poor quality images, and proper color matching information and proofs to ensure accurate color reproduction.

PLEASE PROVIDE THE FOLLOWING WHEN SUBMITTING ART

RASTER ART (photos, logos containing any continuous tone images):

- Art submitted at 1:1 (100%), resolution should be no less than 60 dpi (100 dpi preferred)
- Art submitted at 2:1 (50%), resolution should be no less than 120 dpi (200 dpi preferred)
- Art submitted at 4:1 (25%), resolution should be no less than 240 dpi (400 dpi preferred)

VECTOR ART:

- Logos should be vector and have outlined fonts (if provided as bitmap, please use high-res images)

FONTS and LINKS

- Supply all fonts used in your design (zip Mac fonts). If unsure how to collect fonts, convert them to outlines
- Supply all links used in your document. Use packaging feature if available. If unsure how to collect links, embed them in the file when saving.

COLOR

- If PMS color matching is required, please use original Pantone + Solid Coated swatches in your artwork. Modifying Pantone names will result in printing default color (CMYK)
- CMYK artwork will be produced "As Is". Our color output is balanced and vibrant.
- Convert RGB art to CMYK if possible.
- If you are sending Certified Color Proofs (GRACoL, SWOP, Fographics), please provide ICC file information used to print your samples. Best option would be to include ICC chart on your prints.

ARTWORK IN THE STRUCTURE

- Please note that any panels going in the metal frame will hide 1/4" of your art all the way around. If you have a continuous wall where individual panels are divided by metal, use 1.25" spacing in between each panel to account for gaps and the natural flow of the graphics.

ACCEPTABLE FILE SOFTWARE

We are capable of working with both PC and MAC based software, and can accept art created with the ADOBE Creative Suite - Illustrator, InDesign, and Photoshop

Always provide the following:

- Native files with fonts and links (zipped)
- High-res PDF-X/4 exports of the files

ACCEPTABLE FILE TYPES and SUPPORT FILES

NATIVE FILES:

- AI CLOUD (CC) file with Packaged supporting links and fonts. You may keep images linked but Packaging feature must be used.
- AI (CS6, CS5, CS4...) file with embedded links and outlined fonts
- EPS file with embedded links and outlined fonts
- INDD file with Packaged supporting links and fonts

PRINT FILES:

- High-res PDF-X/4 (preferred)
- AI with PDF content (choose this option when saving file)
- EPS files with embedded links and outlined fonts

RASTER OR BITMAP ART:

- Photoshop EPS (preferred, use 8-bit preview, Max, Quality JPG compression)
- PSD (make sure font layers are rasterized)
- TIFF, JPG (quality 8 and higher)

Mac users: Use Zip or Stuffit programs when submitting fonts other than OTF (Open Type Fonts)

WAYS TO SEND ARTWORK

Files below 10 MB can be delivered via email. Larger files may be posted to Exagere's fileshare site. You may get the link and other needed information from your Exagere service representative in order to post files. However, a hard copy proof and backup of the files on CD-ROM/DVD may be required to be sent via overnight delivery in addition to posting the electronic files. Please call (601) 569-9357 for assistance.
