

Minnesota Municipal Utilities Association Educational Foundation

# Introducing the MMUA Educational Foundation

*A charitable organization that promotes utility careers to an expanding workforce*

## A new investment in utility careers

**MMUAEF's mission is to:**

- Award scholarships and connect prospective workers with apprenticeship opportunities in municipal utility trades.
- Build community awareness of utility workforce needs, careers, and opportunities.
- Expand continuing education for people already serving municipal utilities.
- Support other charitable and educational activities related to municipal utility workforce needs.

*Founded in 2026, MMUAEF is independent of MMUA, complementary to its work, and aligned with its mission.*

## Get involved

### THREE WAYS TO HELP

- Donate to our scholarship program.
- Encourage workers of all ages to apply for a scholarship. Applications open in February each year.
- Volunteer on the joint MMUA/MMUAEF Workforce Development Task Force.

*Every connection helps strengthen the municipal utility workforce.*
