

TWO Day Water Certification Review: **Limited Treatment**

1.2 CECs, Water Technical

You must attend the entire class to earn the CECs

Michigan Rural Water Association has compiled review courses for those planning to take the water treatment and distribution Certification Test. The course will be instructed by an experienced water operator. The course content has been structured based on the EGLE study guide for water operator certification exams. Concentration will be placed on reviewing system maintenance, chlorination, sampling, and other areas necessary to help you prepare for the certification exam. Your instructor will answer your questions and provide tips on test-taking.

Agenda Day 1: Limited Treatment
