

# Wastewater Collection System Maintenance

Collection systems are the arteries of any wastewater, reclamation or clean water plant. Proper maintenance practices can help to prevent unneeded failures that can create downtime, possible litigation and compliance issues. We can move from reactive maintenance to predictive maintenance practices. This training will provide a look at some common maintenance practices used to maintain collection systems.

## Agenda

8:00am – 8:30am	Registration
8:30am – 9:30am	Troubleshooting Pump & Level Control Systems
9:30am – 10:30am	Troubleshooting Pump & Level Control Systems, (Cont.)
