

Build an Auction Fortune Teller

Directions

To **BUILD** the fortune teller:

1. Cut around outside of Fortune Teller.
2. Fold in half and in half again.
3. Open out, turn over so top is blank and fold each corner into the middle. The colors will be pointing to the center.
4. Turn over and repeat. The numbers will be pointing to the center.
5. Turn back over so you can see the colors.
6. Slide your thumb and your finger behind 2 of the colors and press together so they bend around and touch.
7. Repeat with the thumb and finger of the other hand for the other two pictures
8. All the colors should now be on top with centers touching
9. You are ready to use your Exploring Ag Ed fortune teller!

[Check out this video](#) for a quick tutorial on how to make a fortune teller.

To **PLAY** the fortune teller:

1. Find a partner that will play the fortune teller
2. Hold the fortune teller closed, ask the partner to pick one of the words
3. Open and close the fortune teller as you spell the word the partner chose. For example, the word "SOLD" will open and close 4 times, 1 for each letter; S(1), O(2), L(3), D(4).
4. Have the partner pick a number that is showing in the center of the fortune teller.
5. Open and close the fortune teller the number they chose
6. Now, have the partner pick a number again.
7. Open that number and read the fortune!

Build an Auction Fortune Teller

Types of Auctions

Build an Auction Fortune Teller

Auction Commission

	1 You sell a painting for \$24,000 and earn 8% commission. What did you earn?	2 You sell a lot of rare coins for \$150,000 at 12% commission. What did you earn?	
8 You sell a house for \$307,000 at 10% commission. How much did you earn?	3 You sell \$2,000,000 worth of cars at 8% commission. What did you earn?	4 You sell a 400 acre farm for \$600,000 at 6% commission. What did you earn?	
7 You sell a tractor for \$375,000 at 10% commission. What did you earn?	6 You sell a lot of 4 Super Bowl tickets for \$20,000 at 15% commission. What did you earn?	5 You sell a warehouse and its contents for \$700,000 at 10% commission. What did you earn?	

CALCULATION NOTE: Remember to calculate commission is percentage calculation.

FIRST: Calculate the % into a decimal. This can be done by multiplying the % by .01, or moving the decimal to the left two places.

Example: 8% commission converts to the decimal .08

SECOND: Multiply the total sale by the percentage in decimal form.

Example: If the sale was \$100, multiply 100 times .08
 $\$100 \times .08 = \8
