The determination of the need for legal services and the choice of a lawyer are extremely important decisions. A description or indication of limitation of practice by a lawyer does not mean that any agency or board has certified such lawyer as a specialist or expert in any indicated field of law practice. Neither does it mean that such lawyer is necessarily any more competent than any other lawyer. Unless otherwise specifically and expressly stated that an attorney is certified as a specialist, a practice area indication does not mean that the attorney is a specialist in such practice area, possesses specialized knowledge in such practice area or has been certified by any State bar association or any other organization as a specialist or expert in such practice area.

NADC History

In 2004, Jonathan Harvey (a dealer attorney and trial lawyer from Albany, New York) had the idea to create a national organization comprised of attorneys who represent vehicle dealers. Mr. Harvey sought assistance from nationally recognized consumer finance attorney, Tom Hudson of Hudson Cook, LLP. Together, they selected a team of 11 other prominent dealer attorneys that would become the NADC’s first Board of Directors.
