Here's what you do by SHOPPING LOCAL

You keep dollars in our economy For every \$100 you spend at a local business, \$68 will stay in the community. What happens when you spend that same \$100 at a national chain? Only \$43 stays in the community.

You embrace what makes us unique You wouldn't want your house to look like everyone else's in the U.S. So why would you want your community to look that way?

You create local jobs Local businesses are better at creating higher-paying jobs for our neighbors.

You nurture community We know you and you know us. Studies have shown that local businesses donate to community causes at more than twice the rate of chains.

You conserve your tax dollars Shopping in a local business district means less infrastructure, less maintenance and more money available to beautify our community. Also, spending locally instead of online ensures that your sales taxes are reinvested where they belong—right here in your community!

You invest in entrepreneurship Creativity and entrepreneurship are what the American economy is founded upon. Nurturing local businesses ensures a strong community.

You make a destination The more interesting and unique we are as a community, the more we will attract new neighbors, visitors and guests. This benefits everyone!
