# MEETING CLIENT NEEDS

**PROJECT:** Skaters Pond

**CATEGORY:** Interior Feature Under \$50,000

In 2014, our client purchased a charming cottage nestled beside a peaceful pond, envisioning it as a serene retreat for herself and her beloved dogs.

From the outset of the remodeling process, one of her top priorities was to create a dedicated space for washing and grooming her cherished companions—an area that would be both functional and thoughtfully designed to reflect the deep bond she shares with them.

The result is a beautifully crafted space—and two very happy pups who now enjoy their own little sanctuary.

BEFORE

We took an unused section of the garage to create a special place for her dogs.
