

MPLS RENOVATION 2025
NARI MINNESOTA ROTY

PROJECT:

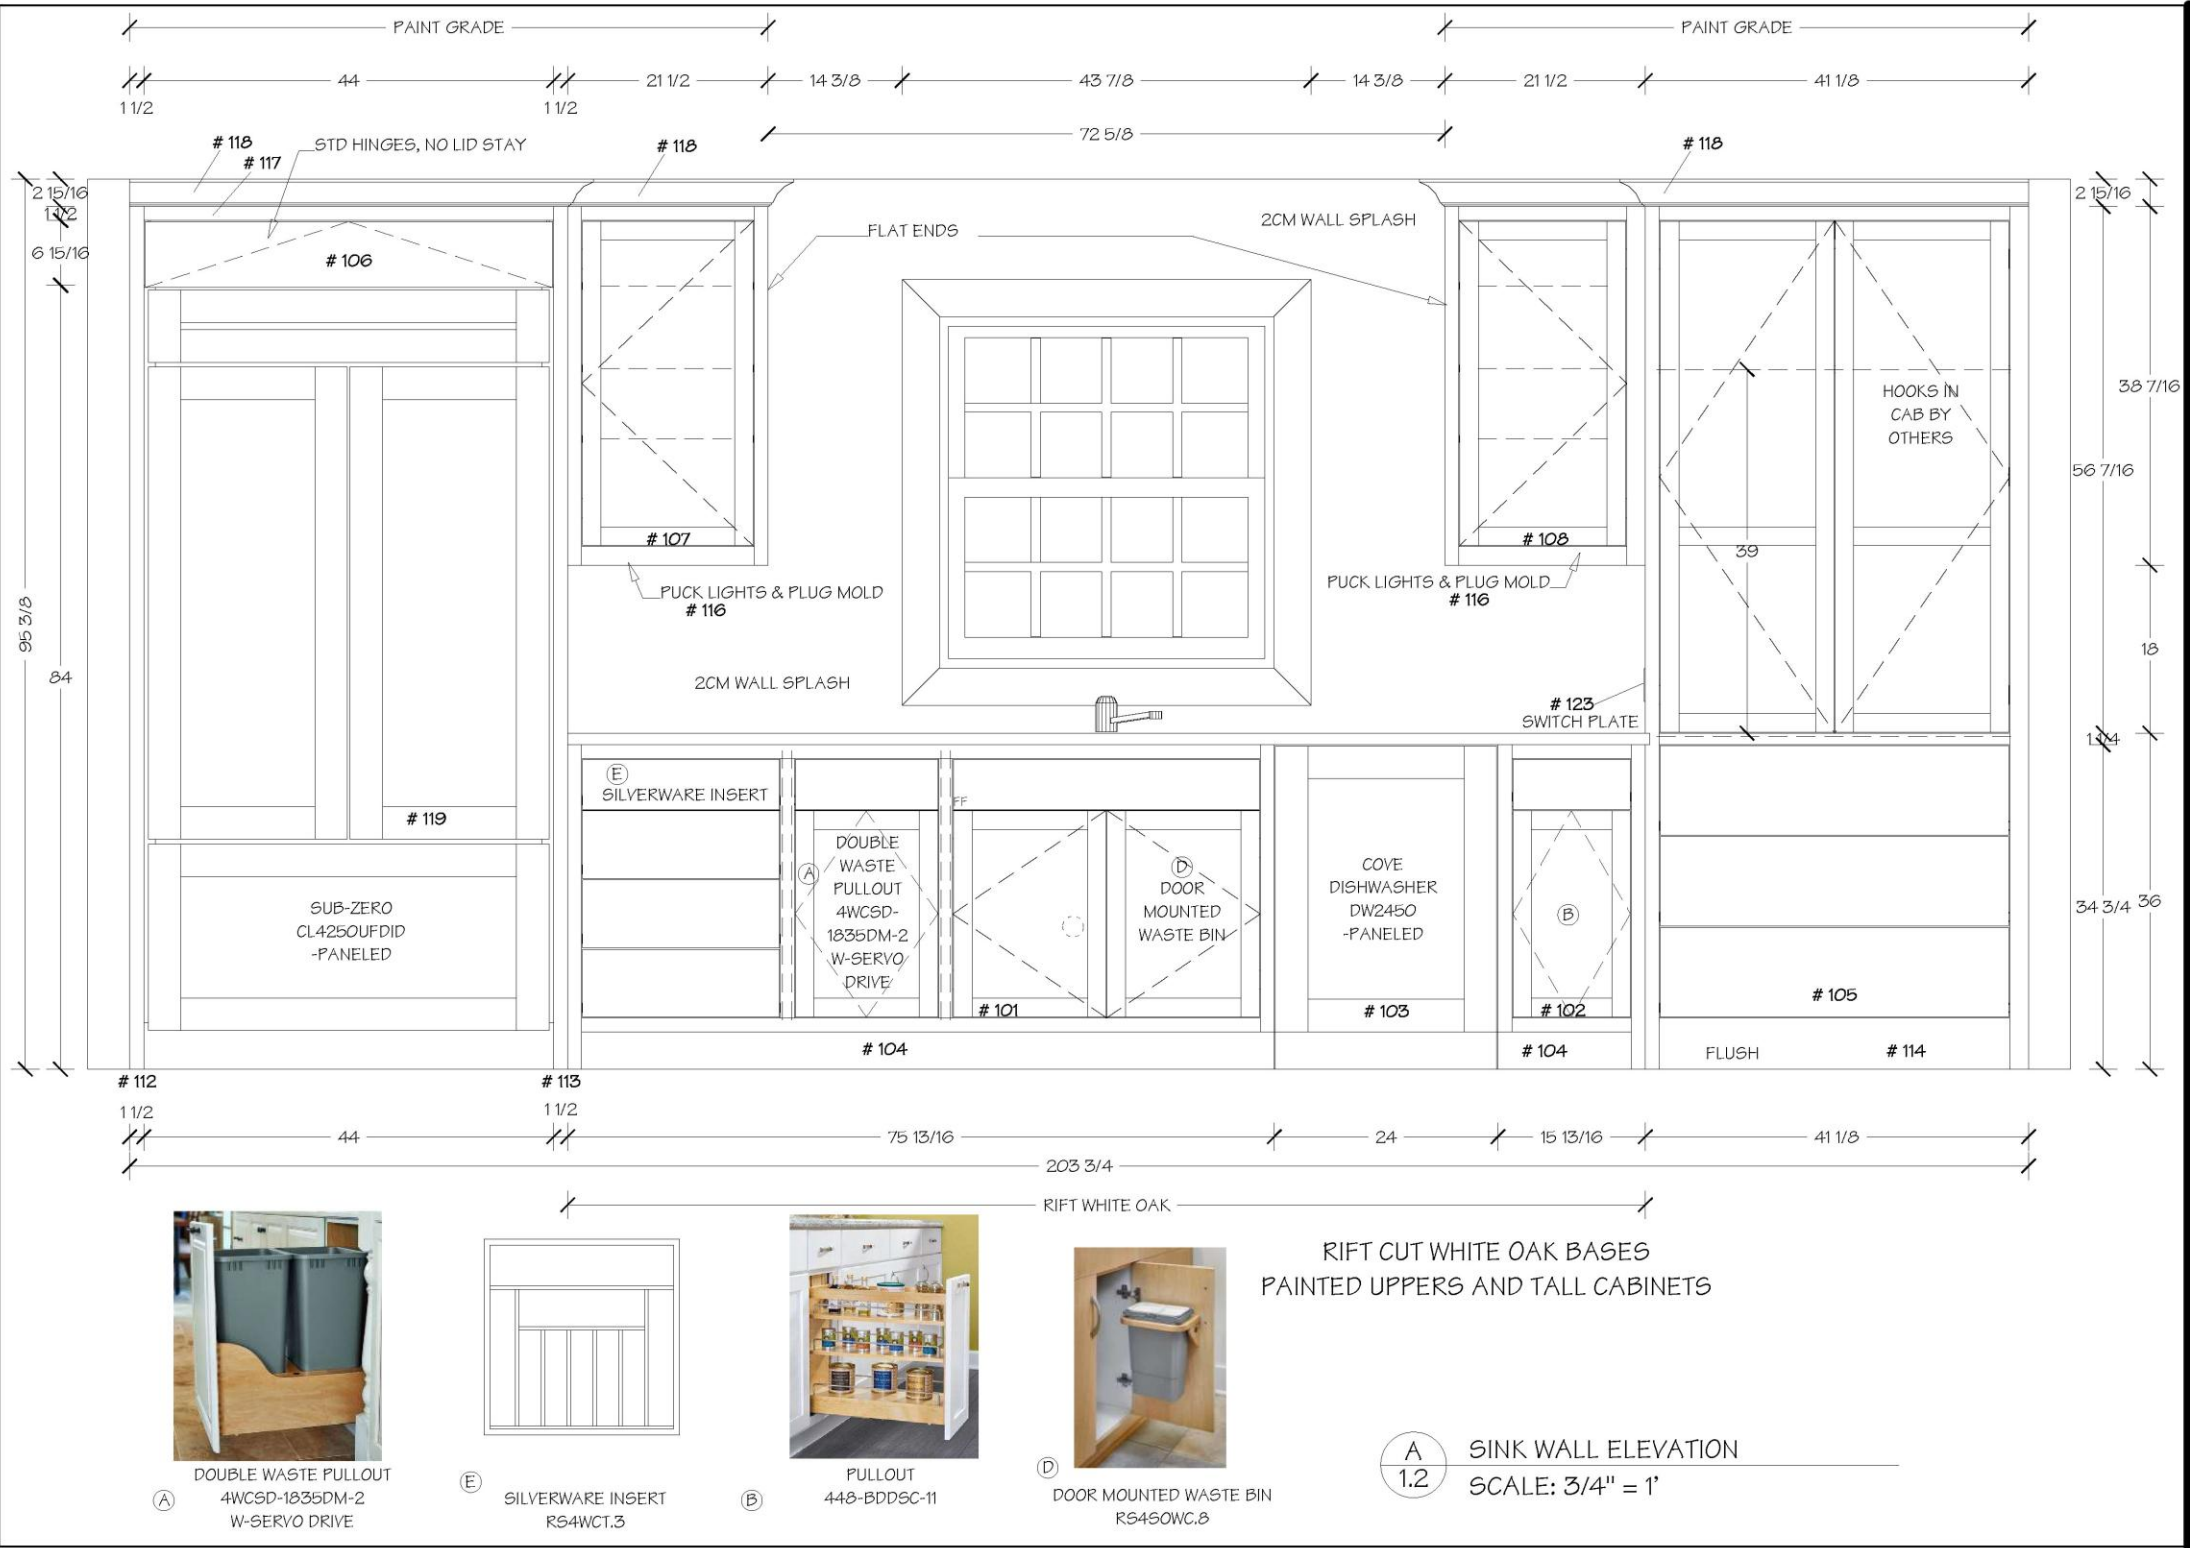

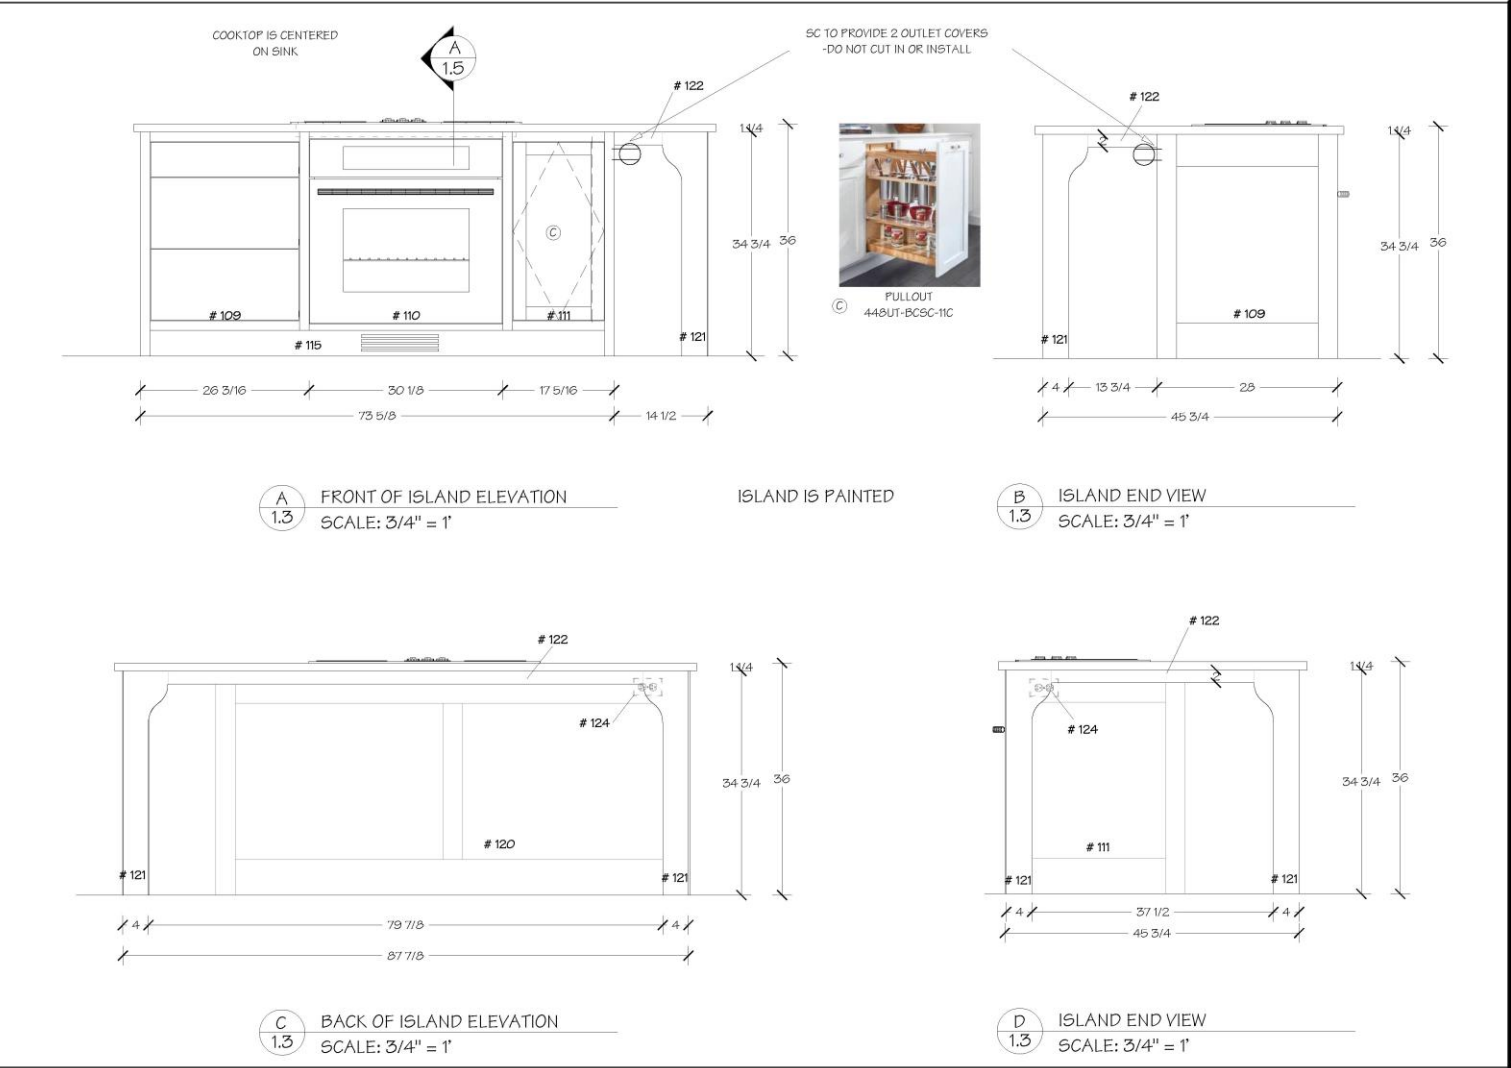

MINNEAPOLIS RENOVATION

CATEGORY: RESIDENTIAL KITCHEN \$150,000 - \$200,000

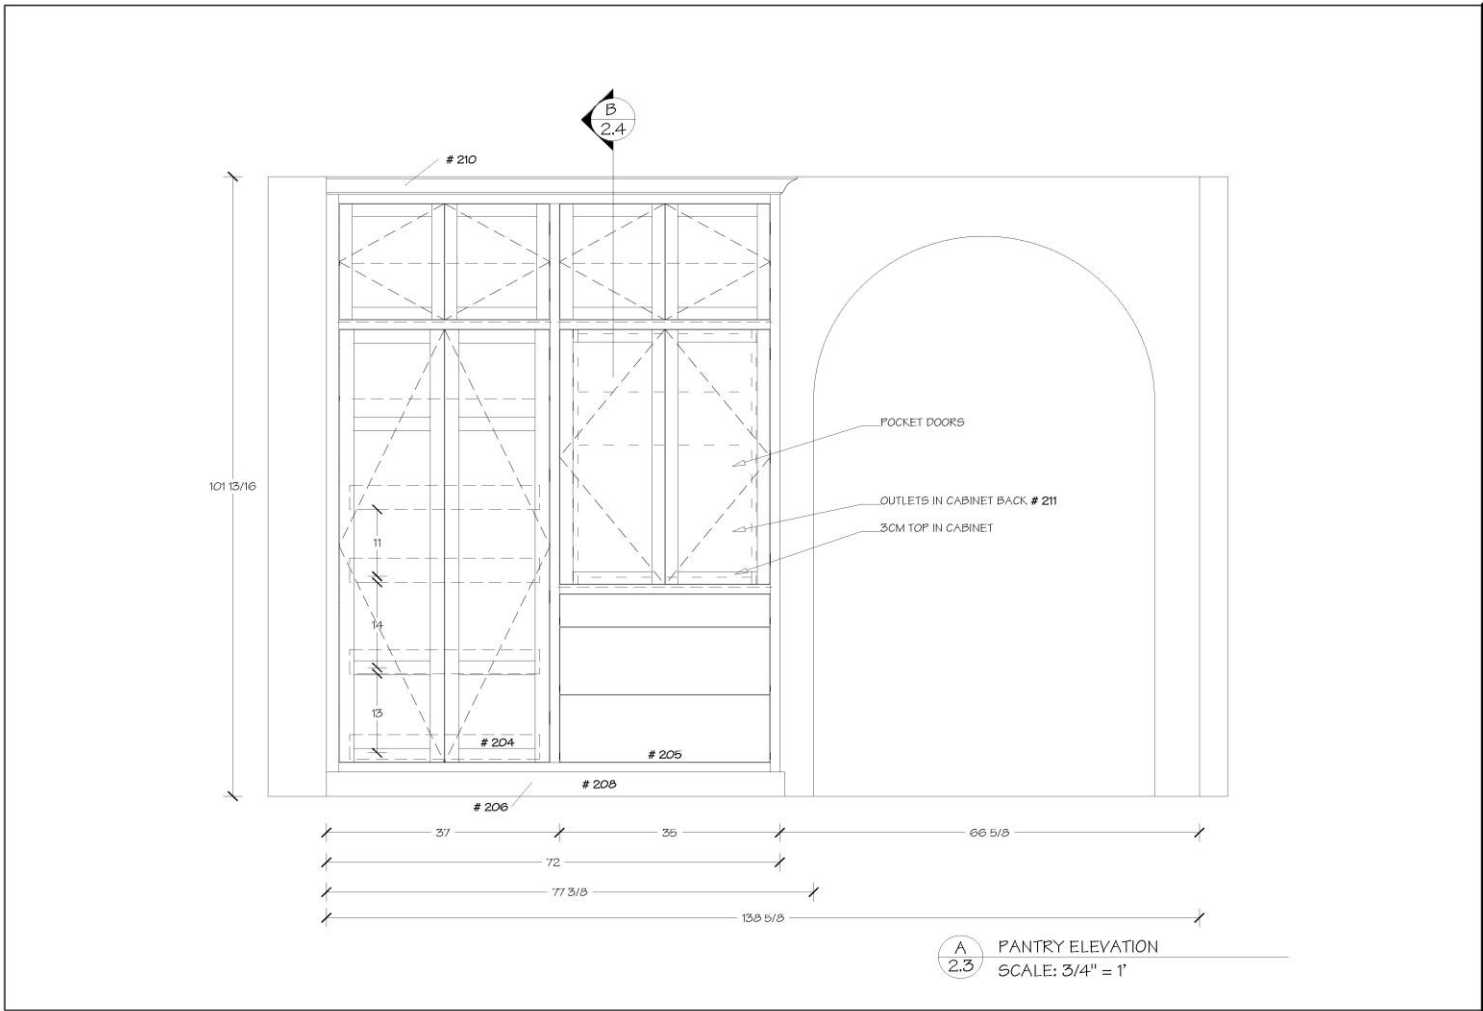

This South Minneapolis kitchen remodel completely transformed a dark, dated, and oddly laid-out space into a bright, open, and highly functional hub of the home. By reimagining both the main kitchen and adjoining butler's pantry, the project created a seamless, spacious feel anchored by a large central island and thoughtfully placed bar cabinets. A mix of painted white cabinetry and warm white oak accents brings a timeless yet modern look, while custom built-ins—including a dedicated bar cabinet and a full-height closet cabinet—maximize storage and efficiency. Every detail was considered to ensure the new layout not only looks beautiful but works effortlessly for everyday living.
