

NCAIS Innovate: AI In Education
March 14, 2025
Forsyth Country Day School

- 8:30am** **Registration and Continental Breakfast | Clay Library**
Check-in and enjoy a light breakfast while networking with other participants.
- 9:00am** **Kick-Off Activity: AI Futures Game | Maggie Renken (Rabun Gap-Nacoochie School) | Clay Library**
- 9:30am** **The Innovation Playground: Share, Discover, and Inspire | Mark Snow (Forsyth Country Day School) | Clay Library**
Dive into a dynamic, hands-on playground session where innovation meets collaboration. This impromptu pitch session is your chance to hear about (or share!) the tools and strategies schools are using to revolutionize teaching and learning. Explore cutting-edge resources, from AI-driven solutions to innovative platforms that support student engagement and learning. Participants can step up to share their own success stories or sit back and absorb fresh ideas to take back to their schools. Whether you're exploring free tools or premium services, this session is your gateway to practical, transformative solutions.
- 11:00am** **Break**
- 11:15am** **Keynote: Building the Future: AI, Industry Trends, and Essential Skills | Sohan Choudhury (Flint) | Clay Library**
Join Sohan Choudhury, co-founder and CEO of Flint (flintk12.com), for a keynote exploring the intersection of AI innovation and the skills needed for students to thrive in a rapidly evolving world. Through a mix of presentation and Q&A, Sohan will share insights into how AI is shaping fields like engineering, the history and trends driving AI development, and the future skills students will need to navigate the workplaces of tomorrow. This session offers a unique opportunity to hear directly from an industry expert and gain a fresh perspective on AI.
- 12:00pm** **Lunch | Cafeteria**

- 1:00pm** **Real-World Applications of AI in Schools: A Panel Discussion | Louis Tullo (Ravenscroft School), Matt Scully (Providence Day School), Kelly Eisenbraun (Forsyth Country Day School), and Rachel Wrenn (Forsyth Country Day School) | Clay Library**
- Discover how schools are successfully integrating AI into their educational environments in this insightful panel discussion. Representatives will share real-world examples of AI applications, highlighting best practices, challenges, and lessons learned. Gain practical insights into how these schools are leveraging AI to enhance teaching, learning, and operations. Whether you're looking for inspiration or actionable strategies, this session will provide a valuable glimpse into the transformative potential of AI in education.
- 1:45pm** **Crafting AI Literacy Frameworks: Positions and Practices for Schools | Maggie Renken (Rabun Gap-Nacoochie School) and Matt Scully (Providence Day School) | Clay Library**
- Join this interactive sandbox session to explore and develop thoughtful, practical approaches to AI literacy for your school. Working in groups, participants will use provided frameworks to brainstorm, experiment, and refine positions and guidelines tailored to their communities. Engage in rich discussions, share strategies, and gain inspiration from expert insights and examples of AI literacy frameworks from organizations (like College Board and TeachAI). Whether you're starting from scratch or enhancing existing digital literacy frameworks, this session will empower you with the tools and ideas needed to shape an AI literacy framework that fits your school's unique needs.
- 3:00pm** **Break**
- 3:15pm** **Closing Activity: Classroom from the Future | Clay Library**
- 4:00pm** **Adjourn**
