**GUARDIAN SOFTWARE SYSTEMS ANNOUNCES NEW
CUSTOMER SERVICE REPRESENTATIVE**

Luke VandenLangenberg named Customer Service Representative

Oconomowoc, Wis. – Guardian Software Systems, a metal casting ERP and MES software provider, announced today the appointment of Luke VandenLangenberg as Customer Service Representative.

“We are excited to bring Luke on to the team,” said Steve Hoppe, CEO of Guardian Software Systems. “His proven experience in assisting clients makes him invaluable to Guardian’s effort to continue successful implementations and industry-leading customer support.”

As a Customer Service Representative, VandenLangenberg is responsible for implementing Guardian Foundry ERP and MES software for new clients of Guardian Software Systems. VandenLangenberg will be critical in continuing the tradition of excellent customer support with our clients across North America and Australia.

“Guardian is an ERP and MES system built for the foundry that can maximize efficiency and profitability of foundries worldwide,” said VandenLangenberg. “I’m excited to begin working with clients from the point of implementation and continuing to work with them on how Guardian can identify inefficiencies and workflow problems and recommend solutions to evolve their business with the latest foundry-specific technologies.”

VandenLangenberg graduated from the University of Wisconsin-Madison with a degree in Nuclear Engineering in 2014. Before Guardian, VandenLangenberg was a product manager and IT support specialist for RehabPulse Inc. a durable medical equipment provider. VandenLangenberg also was the co-founder of an agriculture and botanical farming/extraction company.

About Guardian Software Systems

Guardian Software Systems is a privately held software and services organization. With customizable offerings that meet the unique needs of organizations in the metal casting industry throughout the entire production chain, Guardian’s ERP and MES software bring the front office and shop floor together. Backed by 30 years of metal casting industry expertise and first-hand experience in over 250 foundries across the world, the Guardian Solution provides organizations with a comprehensive view of their business, arming them with the data and visibility to optimize operations, grow beyond existing KPIs and beat the competition.
