

SUNDAY, JUNE 19 - SYMPOSIUMS

ANALYTICS TEXAS D

Oracle Analytics has seen tremendous innovation and growth since its introduction focusing in providing award-winning experiences to all users, on any data, and on any device addressing the Analytics needs of large enterprises and small departments. With its broad offering around connectivity, data preparation and modeling, visual experiences, machine learning, and natural language, there is always something new happening.

In the Sunday Symposium, the Oracle Analytics Product Management will deliver deeper insight into the Oracle Analytics portfolio strategy and roadmap by exploring recent achievements in enterprise, self-service, and augmented analytics; discussing new and upcoming features; and uncovering its strategy for cloud, on-premises, and mobile.

9:00 - 10:30 a.m.

Oracle Analytics Symposium

Bret Grinslade and Mike Durran, *Oracle Corporation*

APEX/DATABASE TEXAS C

Join members of the APEX Product Development team and Database Advocates for a day full of APEX and Core content, demos, roadmap, and a whole lot more. You'll hear directly from team members that work on key APEX functionality, discover how APEX was instrumental in Oracle's pandemic response, learn about new features in the latest release, explore approaches using multiple single-purpose or single multi-purpose database, how you can leverage APEX on Oracle Cloud, and get a glimpse of what lies ahead on our product roadmap (both APEX and Database.) Come join us Sunday for this rare opportunity to engage directly, in-person, with our team, and take your APEX and Database apps to the next level!

9:00 - 9:40 a.m.

#LetsWreckThisTogether

Shakeeb Rahman, *Oracle Corporation*

9:45 - 10:30 a.m.

New Features

Marc Sewtz, *Oracle Corporation*

10:30 - 10:45 a.m. | Break

APEX/DATABASE Cont. TEXAS C

10:45 - 11:25 a.m.

APEX 22.1: Progressive Web Apps

Vincent Morneau, *Oracle Corporation*

11:30 a.m. - 12:15 p.m.

APEX 22.1: Workflow - Marc Sewtz

Marc Sewtz and Niels de Bruijn, *Oracle Corporation*

12:15 - 1:45 p.m. | Lunch

1:45 - 2:35 p.m.

Where On Earth Should I Put My Data?

Connor McDonald, *Oracle Corporation*

2:40 - 3:20 p.m.

APEX 22.1: Customizing Universal Themes Like a Pro

Tim Kimberl, *Oracle Corporation*

3:25 - 4:15 p.m.

Oracle Database - The Next Release is for Developers

Connor McDonald, *Oracle Corporation*

4:20 - 5:00 p.m.

APEX + Oracle Cloud

Vladislav Uvarov, *Oracle Corporation*

EPM TEXAS D

The ODTUG Kscope conference happens to coincide with Oracle's new fiscal year and is our first opportunity to share the latest insights and announcements with conference attendees. That makes ODTUG Kscope the "must attend" conference, and there is no better venue for us to do that than at our Oracle Fusion Cloud EPM Sunday Symposium. With both our 11.2 releases for our Hyperion EPM on-premises deployments and the rapid innovations coupled with the depth and breadth of functionality in Oracle Cloud EPM, we have a lot of valuable insight and information to share with our EPM-focused attendees at this year's Sunday Symposium. Whether you have existing EPM deployments on-premises, cloud, or a little of both, this symposium is one you definitely don't want to miss. We will cover the strategy and roadmap for all your deployment investments and continue our tradition of treating attendees to first looks at the latest innovations and works-in-progress. You will also learn how our customers are taking advantage of Cloud EPM to deliver best-in-class functionality and enterprise performance to the business.

Presented by Oracle EPM product management and development leaders, you will get unfiltered insight into our key R&D initiatives. Our goal at the EPM Sunday Symposium is to expose attendees to the latest and greatest from Oracle EPM development in these areas and offer you the opportunity to learn more in the detailed conference sessions. In keeping with our goal, the EPM Symposium's agenda is intended to be a free flowing and interactive session that will cover a State of the Business keynote by Matt Bradley and Hari Sankar, followed by an innovation R&D showcase and audience Q&A facilitated by your Oracle EPM Product Management team for both cloud and on-premises. We look forward to your attendance at this year's symposium.

1:00 - 5:00 p.m.

Oracle Strategic EPM Symposium

Al Marciante, *Oracle Corporation*

Other Events

5:00 – 5:30 PM

Various Texas meeting rooms

ESSBASE TEXAS D

Essbase 21c is a major release that provides an upgrade path both on-premises and on the cloud with a single code line. Get updates on the latest features of 21c and benefits of upgrading to the latest version. We look at the features introduced in the latest versions that allow existing Essbase 11g users to move to 21c easily. We discuss customers running on OAC Essbase and 19c OCI MP and the path forward for them on the cloud. We also talk about the new innovations with 21c on the Autonomous Database and the roadmap.

10:45 - 11:45 a.m.

TexasD

Oracle Essbase Symposium

Mike Larimer, *Oracle Corporation*

Other Symposiums

1:00 - 5:00 p.m.
