

To Whom It May Concern,	
Please be aware that	will be suffering from intense bouts of
headaches as a result of attending the re	cent Kscope conference. This is due to the extreme
amount of targeted Oracle information for	orcibly directed to the cranial area.
	upper cognition limit above which adverse signals can expected to quickly dissipate but could last for several his/her system.
	may spontaneously break out into periods of the conference come flooding back. Unfortunately, this
is a permanent condition and there is no	known cure.
	some success with prescribing a long term Kscope explore this option, please contact my office.

Dr. Monty Latiolais KEO, Kscope25

Sincerely,
