

# The Leadership Forge

## March 6

*She flies...* Oregon's motto is 'she flies with her own wings,' and Oregon/SW Washington's women in bio as successful entrepreneurs, emerging leaders, mentors, newly careered, bio professionals and growth enthusiasts at all levels are convening on March 6 at The 2025 Leadership Forge.

This half-day leadership workshop will offer participants key leadership development strategies, 'homework' to develop dynamic Personal/Professional Success Plans, mentoring and reverse mentoring collaborations, interactive discussions with prolific and successful women and a surprise event - let's just say we're calling it a 'TeaTime Chat.'

Leading us will be Pacific Northwest entrepreneur/fractional executive (and as she might describe herself, courageous) **Lori Spencer**, a well-known local leader formerly at BuiltOregon, an expert in creation and implementation of successful go-to market strategies, and challenge navigator.

**Bonus takeaway:** For an add-on \$25 fee, attendees can opt to have a professional portrait/photo taken with retouching included. Add this at checkout when you register.

Early-bird registration rates end 2/21. See the agenda and register ASAP at this QR code or at <https://www.oregonbio.org/events/oregon-bio-women-workshop2025>.

*She flies...*

*Lori Spencer is a 30+ year business executive with vast experience building brands with various CPG premium companies mostly in the food and beverage industry. Since co-founding Oregon Chai, co-leading it from concept to a successful acquisition, she has worked with brands like New Seasons Market, Tillamook Creamery, Salt & Straw, Zoomcare+ and Beaverton Foods to help manage and scale growth, develop innovative and disruptive products and oversee all aspects of the business.*

*Lori has also been active in the Oregon business community throughout her career as a board member, advisor, consultant and mentor, and is currently on the board of Tender Loving Empire, mentor/coach at Xxcelerate Women and an advisor to a number of founders, startups and small businesses.*
