

# • Anthology Special Offer •

Dear booksellers,

If you would like access to a live version of the Anthology POS system for your studies, this can be provided in the form of the evaluation copy of the program with step-by-step instructions.

This would be downloaded / installed onto your windows computer.

You are able to operate fully by adding inventory, conducting sales, taking special orders, creating purchase orders, handling receiving, managing returns to vendors, running reports and generating mailing / email lists for marketing purposes. The evaluation copy has the link setup to import titles from Ingram Content along with used book functions, gift cards and many other features of the program.

To claim your evaluation copy, just email your contact information to [jim@anthologysoftware.com](mailto:jim@anthologysoftware.com) or call 800-819-0095 ex: 103.

In addition, there are videos and documents on many topics that can be found at <https://www.youtube.com/user/AnthologyChannel> and <https://www.anthologysoftware.com/documents-whitepapers.php>. Please let me know how we can be of assistance.

**Jim Bean**
