a \$225  
value

## MVB Special Offer for Students

The Inventory Management module is sponsored by MVB US, the company who operates the Pubeasy and Pubnet services, which facilitate easy and efficient electronic ordering of new books direct from publishers and distributors.

In the course, students are required to create a free Pubeasy account and link it to one Big 5 publisher account by Class 10.

If students have a [supported](#) EDI-capable POS system and their store has not already signed up for Pubnet, MVB is offering to waive their Pubnet setup fee (a \$75 value) AND provide a [SAN number](#) if needed (a \$150 value).

To redeem this offer take the following steps by the end of the course:

1. Register for Pubeasy first (if not already registered).
2. Determine if your store already has a SAN number. If so, note it down as you'll need it during registration. If not, you'll use the fake SAN 1234567 and MVB will purchase a SAN for your store.
3. Go to <https://register.pubnet.org/> and enter the same email address from Step 1.
4. Click the emailed link and you should be taken to a screen similar to the following:

Change Key	Stat	Change Type	Updated	Created
<input type="checkbox"/> kmsundin00@gmail.com	CUST	UP		

5. Click the green "Create new registration button"
6. Choose Pubnet

☐ **Pubeasy**  
A SERVICE BY NIELSEN BOOK Register as a **UK, Europe/International** Retailer using Pubeasy

☐ **Pubeasy**  
A SERVICE BY MVB Register as a **North American** Retailer using Pubeasy

☐ **Pubnet**  
Register as retailer or supplier exchanging **EDI documents** using Pubnet

Next

7. Fill in the required information. If your store does not already have a SAN use the number 1234567.

8. If you run into any problems or if you're not sure if your store is already registered, please email Kristina Sundin at [K.Sundin@mvb-online.com](mailto:K.Sundin@mvb-online.com)
